- Increases unit efficiency
- Extends the life of your unit
- Improves comfort and reliability
- Provides safe operation

Our prepaid Energy Savings Club also provides you with discounts on parts and new equipment as well as priority service if your unit were to breakdown.

History of . . . Bill's Heating

Founded in 1951 by Bill Miller, Bill's Heating has been providing Elkhart County residents with high-quality HVAC sales and service. Working out of his home garage, Bill quickly established a reputation for installing quality products at a fair price. In 1974, he moved the business to a larger facility, which featured increased office space, as well as a warehouse and a showroom to accommodate the needs of his growing customer base. The company continued a pattern of consistent growth and in 1995 the office was moved to its current location in Goshen's Linway Plaza.

In the years since Bill founded the company, three of his four sons have worked for the business in various capacities and in 2007 Bill's grandson Scott became the third generation owner.

On October 31st, 2019, Bill's Heating purchased Goshen Plumbing and Heating, another local company with a long history in our community. Goshen Plumbing and Heating has been the go-to plumbing company for Goshen residents. Expanding into full-service plumbing has allowed Bill's Heating to better serve the needs of our customers. We thank our loyal customers for trusting us with all of their plumbing and indoor home comfort needs and we look forward to continuing to serve Elkhart County and the surrounding communities for many years to come.
