SINGLE-STAGE MULTI-SPEED GAS FURNACE

AMES92 | UP TO 92% AFUE

Features to be proud of:

Quiet Comfort

Many homeowners think the best gas furnaces are not seen or heard. That's why an **Amana** brand AMES92 Multi-Speed Furnace is insulated for noise reduction. With a sound-isolated blower assembly and a heavy-gauge steel cabinet, it offers quiet and efficient performance as compared to a natural draft furnace.

Energy Efficiency

Energy efficiency equates to cost savings. A gas furnace's efficiency rating can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what percentage of each dollar of natural gas purchased is actually used to heat your home; and the type of blower used in the furnace.

This **Amana** brand Single-Stage, Multi-Speed Furnace offers 92% AFUE, as opposed to lower ratings of less efficient gas furnaces. Its multi-speed blower can improve its efficiency rating and enable the furnace to maintain consistent warmth in low-heat capacity mode without inefficient high-heat surges associated with natural draft furnaces.

Choose an **Amana** brand gas furnace and you won't get cold feet

Often you have no choice but to replace your old, worn-out furnace; however, you can choose to go with a name you know, like the **Amana** brand, one of America's most trusted and enduring consumer brands. Yet, peace of mind isn't all that you'll enjoy with an **Amana** brand AMES92 Single-Stage, Multi-Speed Furnace.

Component upgrade offers better performance in exchange

The most critical component of a furnace is its heat exchanger. The **Amana** brand heat exchanger is built to deliver durability and performance. Along with our **SureStart**[®] Ignition System and its silicon nitride igniter, **Amana** brand furnaces' key components continue to set our standards for reliability.

Get straight A's in cost effectiveness

When you receive an AFUE rating of 90% or more, your gas furnace is performing at the top of its class. Simply put, the **Amana** brand AMES92's 92% AFUE rating means 92¢ of every dollar you spend on energy is actually used to heat your home. That's very little wasted energy when compared with lower-rated or older, increasingly inefficient heating systems.

*The security of the **Amana** brand's amazing warranties*

To truly seal the deal, **Amana** brand gas furnaces are backed by industry-leading limited warranties*. Together these warranties combine to offer you a level of purchase protection that's the stuff of legend.

LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), the 2 Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

EXTENDED SERVICE PLANS AVAILABLE

For even greater peace of mind, ask your dealer or visit our website at www.amana-hac.com for more details about **Asure**SM, an affordable Parts and/or Labor Extended Service Plan for your entire **Amana** brand HVAC system.

The Amana brand AMES92 High-Efficiency Gas Furnace advantages:

- ✓ **Control board** – Stores last diagnostic codes in memory and indicates condition through a flashing LED for quick troubleshooting.
- ✓ **Durable heat exchanger** – Unique tubular stainless-steel construction formed using wrinkle-bend technology results in an extremely durable heat exchanger. Paired with a stainless-steel secondary heat exchanger, this combination provides reliability, durability and efficiency.
- ✓ **Multi-speed ECM motor** – Automatically adjusts airflow to match comfort needs, reduces energy consumption and system noise as compared to a single-stage motor.
- ✓ **High efficiency** – Reduces energy needed to deliver outstanding comfort and efficiency as compared to a lower AFUE furnace.
- ✓ **Continuous air circulation** – Provides added filtration and keeps air moving throughout your home to help maintain comfort.
- ✓ **Durable Silicon Nitride Igniter** – Eliminates the need for an energy-wasting pilot light.
