Air Handlers

An air handler regulates the circulation of the heated or cooled indoor air to help reach the temperature that you have set on your thermostat or control system. Depending on the design of your home, an air handler may be a principal indoor component of your split heat pump system.

When properly matched with your heat pump, the indoor air handler is designed to circulate conditioned air through your home's ductwork efficiently. Make sure that your system is performing to its optimum level with our Amana brand air handlers.

* Complete warranty available from your local dealer or at www.amana-hac.com. To receive 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.amana-hac.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions.

** Compatible with Amana Brand S-series side discharge inverter (ASXS6 and ASZS6) outdoor unit. Modular blower MBVK models are the ONLY ones compatible with the Amana Brand S-series outdoors.

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

WARNINGS:

Always use a licensed installer or contractor to install this product. Do not try to install the product yourself. Improper installation can result in water or refrigerant leakage, electrical shock, fire, or explosion.

Use only those parts and accessories supplied or specified by Amana Brand. Ask a licensed contractor to install those parts and accessories. Use of unauthorized parts and accessories or improper installation of parts and accessories can result in water or refrigerant leakage, electrical shock, fire, or explosion.

Read the Product Manual carefully before using this product. The Product Manuals provide important safety instructions and warnings. Be sure to follow these instructions and warnings.
