# Energy-Efficient Packaged Dual Fuel Unit

APD14 | UP TO 14.5 SEER | 8.0 HSPF | 81% AFUE

Features to be proud of:

## Energy Efficiency

SEER or Seasonal Energy Efficiency Rating is a measure designated by the U.S. Department of Energy and gives you a good idea of the performance you can expect from air conditioners and heat pumps. At a 14.5-SEER cooling rating, the Amana® brand APD14 Packaged Dual Fuel Heat Pump delivers an 8.0 HSPF (Heating Seasonal Performance Factor). When you choose an energy efficient Amana brand heat pump, year-round indoor comfort is combined with year-round savings.

## Dual-Fuel Capability

Ideal for colder climates, this dual fuel heat pump is perfect for homes that annually require greater heating capacities, but also appreciate the cost-effective operation of a heat pump. The Amana brand APD14 unit delivers both in a single unit.

## Quiet Comfort

You can be assured that your Amana brand Dual Fuel Unit will provide you with quiet operation. To minimize operating sounds, we've combined quiet scroll compressor technology with a high-density foam cover plus a fully-insulated blower compartment to provide unobtrusive performance.

## An enhanced level of comfort before and after your purchase

When it's time for a new indoor comfort system, you shouldn't have to sweat the decision of which manufacturer to choose. The legendary Amana® brand, trusted by generations for its performance and reliability, gives you one less thing to worry about. Choose an Amana brand APD14 Packaged Dual-Fuel Heat Pump with confidence, knowing you're getting the world-class engineering and good ol' American craftsmanship you've come to expect from the Amana brand.

### *Dual-fuel functionality makes this the total package*

When you choose an Amana brand APD14 Packaged Dual-Fuel Heat Pump, you'll enjoy years of cost-effective, worry-free indoor comfort from a single, self-contained unit. The heat pump provides cooling during warmer months and economical heating when it's cold, plus the unit features a gas electric section for handling the coldest weather with ease. It also can deliver heating and cooling capacity from two to four tons, a Seasonal Energy Efficiency Ratio (SEER) up to 14.5 and an 8.0 Heating Seasonal Performance Factor (HSPF).

### *You'd be hard-pressed to find a better compressor*

This packaged dual fuel unit's most important component in terms of cooling efficiency and performance is its compressor—the heart of the system's operation during summer months. The Amana brand APD14 Packaged Dual-Fuel Unit features an energy-efficient scroll compressor, which is designed with fewer moving parts that result in lower energy use compared to units with reciprocating compressors.

### *The security of the Amana brand's amazing limited warranties\**

To truly seal the deal, the Amana brand APD14 Packaged Dual Fuel Unit is backed by one of the best warranties\* in the industry. This unit features a Lifetime Heat Exchanger Limited Warranty\*, a Lifetime Compressor Limited Warranty\* and a 10-Year Parts Limited Warranty\*. The longevity of premium Amana brand products combined with this excellent warranty\* coverage offer you a level of purchase protection that's the stuff of legend.

### LIMITED WARRANTY\* PROTECTION

\*Complete warranty details available from your local dealer or at [www.amana-hac.com](http://www.amana-hac.com). To receive the Lifetime Heat Exchanger Limited Warranty, Lifetime Compressor Limited Warranty (in each case, good for as long as you own your home), and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

### EXTENDED SERVICE PLANS AVAILABLE

For even greater peace-of-mind, ask your dealer or visit our website at [www.amana-hac.com](http://www.amana-hac.com) for more details about *Assure*™, an affordable Parts and Labor Extended Service Plan for your entire Amana® brand HVAC system.

## The Amana® brand APD14 Packaged Dual-Fuel Unit advantages:

- ✔ Energy-Efficient Scroll Compressor – Using chlorine-free R-410A refrigerant, it provides years of reliable cooling comfort and lower energy bills compared to lower SEER units.
- ✔ Efficient Cooling Capacity – Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.
- ✔ All-Aluminum Evaporator Coil – A single metal solution that is designed for enhanced durability and performance.
- ✔ Heavy-Duty Heat Exchanger – Tubular stainless-steel construction formed using wrinkle bend technology results in an extremely durable heat exchanger.
- ✔ Gas Heat Section – For extra heating performance, this second fuel source provides additional heating capacity with 81% AFUE.
- ✔ Heavy-Gauge Galvanized Steel Enclosure – Powder-paint finish protects your system from extreme outdoor elements.
- ✔ Quiet Operation – Fully-insulated blower compartment with convenient access panels and a high-density foam compressor sound cover offer quiet performance.
- ✔ Self-Contained Package Unit Design – Affords multi-position installation on either the ground outside your home or rooftop of your home.
