

# Why Bryant® Ductless?

When you're in the heating and cooling business, you understand the importance of not only selling quality products to your customers but of providing them with outstanding service. That's why our Bryant dealers and distributors have highly satisfied customers—because they know that Bryant products and services lead the way in efficiency, technology and responsiveness.

## 24/7/365 EFFICIENCY

Achieve up to 42 SEER and 15 HSPF with certain Bryant combined indoor/outdoor units. Most Bryant Ductless Systems are ENERGY STAR® certified and may qualify for federal and state rebates where available.

A combined Bryant Ductless System provides cooling in outdoor temperatures up to 122 degrees Fahrenheit and heating in temps as low as -22 degrees Fahrenheit.

## VRoom SELECTION SOFTWARE

With VRoom Selection Software, engineers can easily design, lay out and prepare VRF and ductless systems for quotes.

## SAVVY TECHNOLOGY

Bryant Ductless Systems use inverter technology, making them more energy-efficient and quieter while providing constant, comfortable temperatures and humidity. They can also be paired with smart controllers such as the Bryant Housewise™ Thermostat and controlled via Wi-Fi® connection.

## OUTSTANDING WARRANTIES

Each Bryant Ductless System comes with a 10-year limited parts (including compressor) warranty. (If properly registered within ninety (90) days after original installation, parts are warranted to the original purchaser for a period of 10 years. Otherwise, parts warranty is 5 years, except in California and Quebec and other jurisdictions that prohibit warranty benefits conditioned on registration. See warranty certificate for details.)

# Whatever the Situation, We're Here for You

Since our founding in 1904, Bryant Heating & Cooling has been committed to bringing the best products to the market. Always at the forefront of change, we're recognized for providing some of the quietest, most energy-efficient, environmentally sound products in the industry.

Our dedication to quality extends to the support and resources we provide our Bryant dealers. Because our reputation rests with yours, we make sure you have whatever your customers require to meet and exceed their expectations.
