Heating & Cooling Systems

WHATEVER
IT TAKES.

Elevate your home with our ductless.

Today's lifestyles demand more than yesterday's technology. Your home's heating and air conditioning needs can be met with new, more efficient and tech-advanced systems. The Bryant® Ductless Evolution® 619PHA High Wall unit has the efficiency and technology to optimize the comfort of any home. Energy friendly. User friendly. Mobile friendly.

CONTROL ON THE GO

FRD

Built-in WiFi® capability allows you to control your ductless system from virtually anywhere via the Bryant ControlBox app.

Rebate Ready

Exceptional efficiency qualifies for federal and state rebates where available.

Relative Humidity Sensor

Built-in sensor allows you to set your room humidity level.

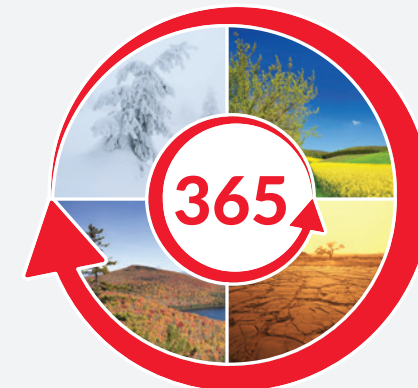

-22°F

Low Ambient Operation

Cooling is good up

122°F

Year-round comfort even in extreme temperatures.

42
SEER Rating

Nothing is more efficient!

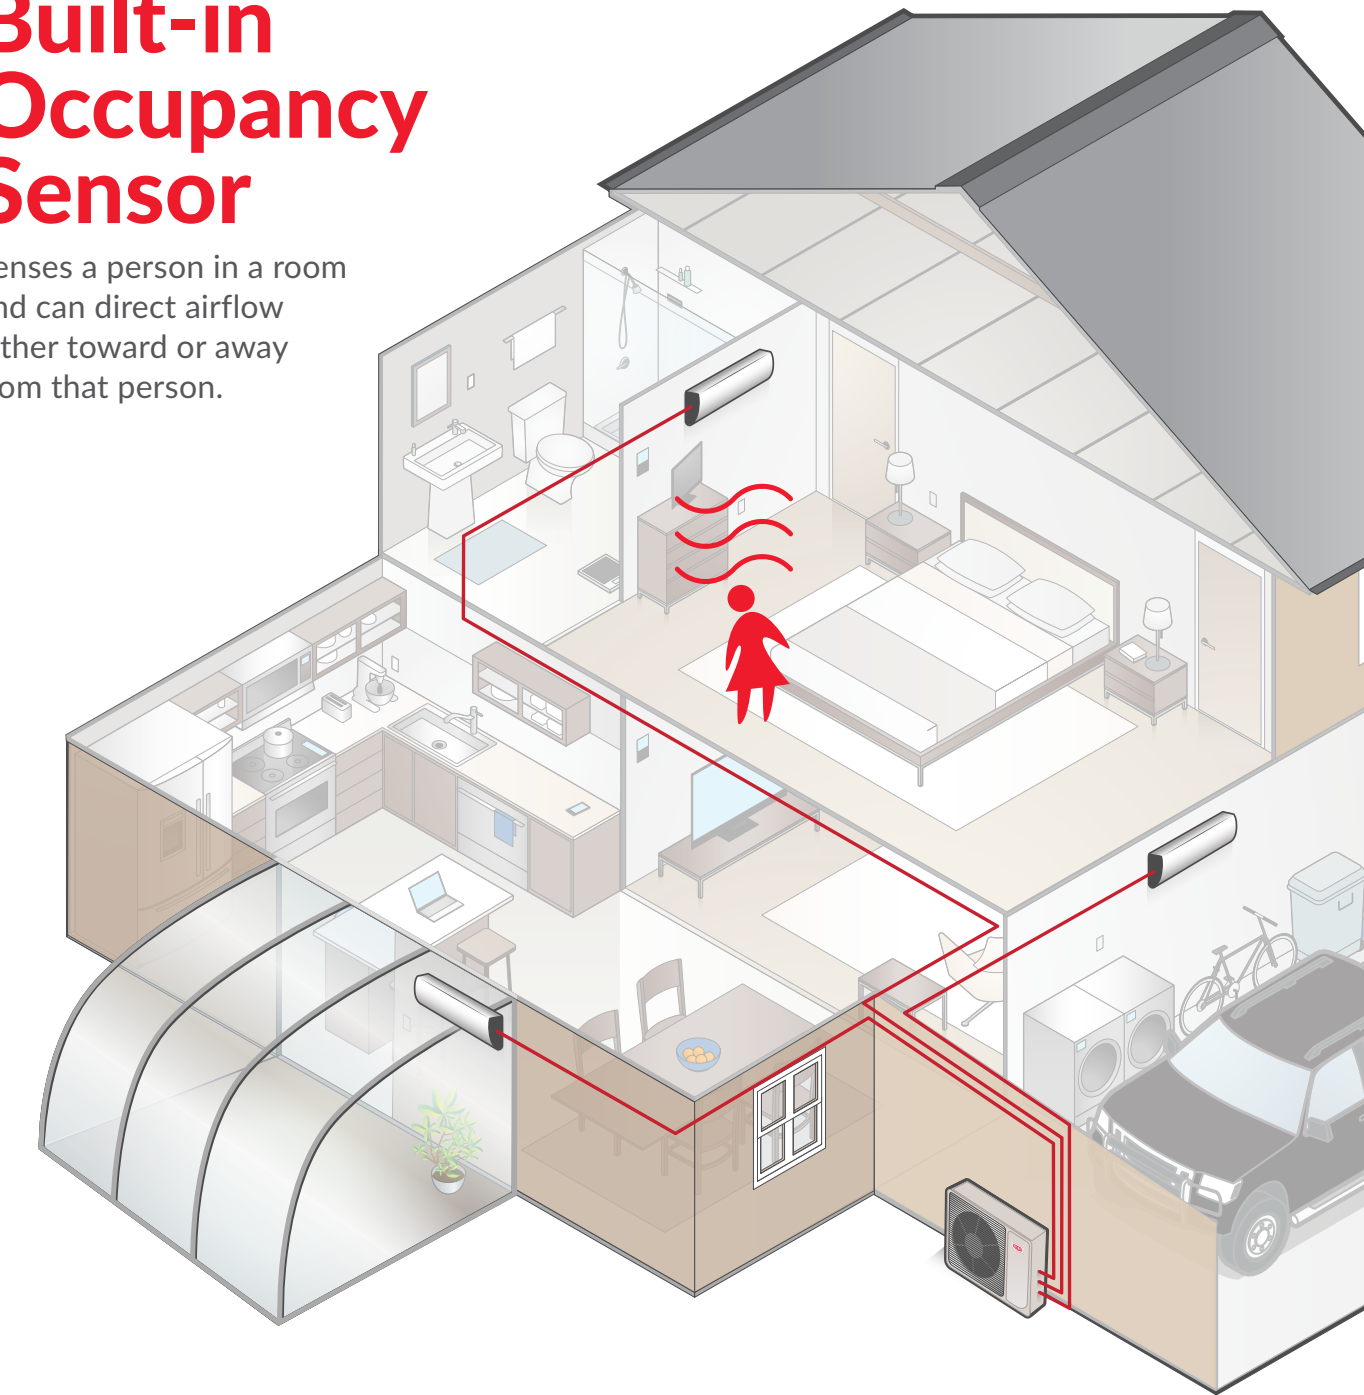

(When paired with the 38MPRA single zone*)

The higher your SEER rating is, the more efficient your unit is.

*According to system ratings maintained by AHRI as of January 22, 2018, in accordance with the AHRI Unitary Small Equipment Operations Manual. The 9,000 BTUh single-zone ductless has a 42 SEER Rating.

Built-in Occupancy Sensor

Senses a person in a room and can direct airflow either toward or away from that person.

IT TAKES experience and passion.

When it comes to the investment you make in heating and cooling your home, we think you deserve a company that does Whatever It Takes™. That's the Bryant difference.

A HISTORY OF EXCELLENCE

Founded in 1904, Bryant Heating & Cooling has worked to bring the best products onto the market and into your home. As technology has changed, we've been at the forefront of that change. With over 100 years of experience, homeowners can trust they're in good hands.

IT'S AN ABOVE AND BEYOND THING

Bryant employees have a passion to exceed expectations. This translates into tangible benefits for our customers. We make sure you have the equipment you need rather than selling you something you don't. And when it's time for service, know that your system will receive the highest level of attention and expertise, because we won't stop until you're satisfied. It's the only way we know to do business.

WE LOVE A GOOD WIN-WIN

When we do our job right, our customers win. They win by:

- Having the ability to choose from a diverse line of products that fit their needs.
- Installing energy-efficient products that work better, save them money and are environmentally friendly.
- Having access to reliable, high quality products, industry experts and unparalleled service.

At the end of the day, it takes customer satisfaction for us to be satisfied. When our customers win, we win, too.
