

EVOLUTION™ AIR PURIFIER

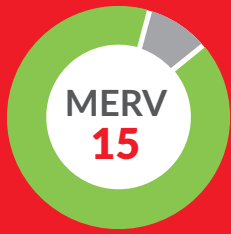

Model DGAPA

**SOLUTIONS FOR A CLEANER, MORE COMFORTABLE HOME,
PLUS EXCEPTIONAL SERVICE FROM YOUR BRYANT DEALER**

Evolution™ Air Purifier

MERV (Minimum Efficiency Reporting Value) is a rating of your air filter's ability to remove dust from the air that is passing through.

Evolution™
Air Purifier

EXTREMELY HIGH GERMICIDAL EFFECTIVENESS

Patented Captures & Kills® technology provides a 99% inactivation rate against select viruses and bacteria.*

HIGH EFFICIENCY FILTRATION

At MERV 15, the Evolution™ Air Purifier offers extremely high air filtration efficiency.

EASY TO MAINTAIN

No cleaning required. Simply remove and replace the filter cartridge periodically to maintain peak performance.

High-Efficiency Whole-Home Air Filtration

Your home is where you go to relax. However, pollen can enter through open doors and windows. Bacteria and viruses can spread between family and friends. Fine dust particles get kicked up from floors and furniture, and dander and hair fall from pets. These contaminants can circulate throughout your home, and have the potential to spread disease and trigger allergic and asthmatic reactions. Bryant comes to the rescue with a complete line of air filtration products led by the Evolution™ Air Purifier.

Bryant air purifiers are great for homeowners with allergy concerns, individuals susceptible to airborne germs such as infants and the elderly, and those with sensitivity to the effects of pollen, pets and more. Compared to many portable air cleaners, the Evolution Air Purifier is silent and can treat 100% of the air flowing through your home comfort system.

How Do They Work?

Truly a whole-home solution, the Evolution™ Air Purifier uses a unique three-step process:

Step 1: The Evolution Air Purifier uses precision point ionization to charge particles as they enter the purifier.

Step 2: A specially designed, continuously charged media filter captures airborne particles.

Step 3: Patented, state-of-the-art technology kills select captured viruses and bacteria* and can prevent further growth of organisms on the filter.

Limited Warranty

To the original owner, the Evolution™ Air Purifier is covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits are not conditioned upon registration. Ask your Bryant dealer about optional extended warranties, which may include labor.

*Based on third-party testing (2012) showing 95% of particles size 1.0 to 3.0 microns captured.

Based on third-party testing (2012, 2007) showing >99% kill rate for common cold surrogate, Streptococcus pyogenes and human influenza.
