# CARRIER BOILERS

Gas and oil boilers  
with up to 95.0% AFUE

Qualifying  
Models Only

Models BWM, BWC, BWH, BW9,  
BW5, BW4, BW3, BWB, BS2

# DESIGNED WITH YOUR COMFORT IN MIND

Innovation, efficiency, quality: Our Carrier boilers offer dependable heating and efficient performance you'll appreciate every day this winter. Throughout our boiler line, we never lose sight of the Carrier quality, environmental stewardship and lasting durability that have endured for more than a century.

## EFFICIENCY

AFUE (Annual Fuel Utilization Efficiency) ratings are like a car's MPG – the higher the number, the greater the potential for savings. Our Performance™ 95 and Comfort™ 95 gas boilers deliver up to 95.0% AFUE heating and the Performance™ 90 gas boiler achieves up to 90.0% AFUE. Both offer the potential for savings over an older, less efficient model you may be replacing.

## VERSATILITY

Carrier boilers are engineered for big performance from a compact cabinet. These models should easily fit into the space of an older, larger unit you may be replacing, and provide greater versatility for new installations. The BWM, BWH and BWC boilers are wall hung models to save floor space.

## LIMITED WARRANTY

To the original owner, the Carrier Performance 95 and Performance 90 boilers are covered by a 10-year parts and 15-year heat exchanger limited warranty upon timely registration. The Carrier Performance™ 86 and Performance™ 84 boilers and the Comfort™ 80 (BWB) boiler are covered by a 10-year parts and 20-year heat exchanger limited warranty upon timely registration. The Comfort™ 80 (BS2) and Comfort 95 have a 10-year parts and 12-year heat exchanger limited warranty upon timely registration. The parts limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate at [carrier.com](http://carrier.com) for complete details and restrictions.

# THE CARRIER DIFFERENCE

If you could look under the hood of a Carrier Performance™ 95 boiler, model BWM, you'd see what drives the performance: a serious commitment to quality. This boiler provides excellent heat transfer and energy efficiency with its stainless steel heat exchanger. It also features a modulating gas valve that maintains your desired comfort by adjusting settings to best match current conditions.

The Comfort™ 95 boiler, model BWH/BWC, provides warm comfort and durability with its stainless steel heat exchanger. Both models offer responsive, energy-efficient comfort backed by one of the most trusted and recognized names in comfort: Carrier.

# GAIN MORE CONTROL WITH A COMPLETE HOME COMFORT SYSTEM

## Boiler

Provides reliable, efficient heating for long-lasting comfort and potential energy savings.

## Control

Wi-Fi®-enabled smart thermostat learns your schedule for greater efficiency and comfort.

## Air Conditioner or Heat Pump

Provides efficient cooling or cooling/heating for comfort and potential energy savings.

## Humidifier

Adds moisture to the air, helping keep static and dry skin at bay.

## MORE THAN A CENTURY OF COOL

In 1902, a determined engineer answered one of mankind's most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world's first modern air conditioning system, Willis Carrier forever changed indoor life, and, more than a century later, the corporation that bears his name takes inspiration from his example.

Carrier strives to improve on our founder's breakthroughs, introducing new technologies that make life at home even cooler. Today, a nationwide network of experts continues to advance Willis Carrier's lifework. Your expert Carrier dealer is equipped to evaluate your home and create a customized system designed around your lifestyle.
