

Champion® Residential Package Equipment

Tailored for you

Champion® Residential Package Equipment brings you heating and cooling functions in one self-contained unit. It is perfectly designed for rooftops or ground pads where interior space is at a premium. Champion® offers both Air Conditioning and Heat Pump models with

gas and electric heating options. Your contractor can recommend the right size and efficiency level for your home and budget – with standard (14 SEER) and high-efficiency (16 SEER) efficiency options.

Installation options

Faster comfort

1. Next-generation high-efficiency blower delivers reduced energy consumption.

Consistent comfort

2. High-efficiency standard ECM motor ensures dependable air distribution.

Quiet comfort

3. Advanced fan design and vibration-reducing technology minimizes noise to provide you with the peace and quiet you expect from Champion®.

Dependable comfort

4. Stainless steel heat exchanger provides long life and optional lifetime warranty*.
5. All-aluminum indoor coil resists corrosion to extend operating life.
6. Robust compressor provides dependable, long-lasting operation.
7. Durable, corrosion-resistant materials and finish - the cabinet is finished with powder coat paint subjected to 750-hour salt spray tests. Galvanized steel base rails protect your unit from the elements.
8. Extruded steel louvers add strength and stability for added durability.

*PCG and PHG models only – product registration required.

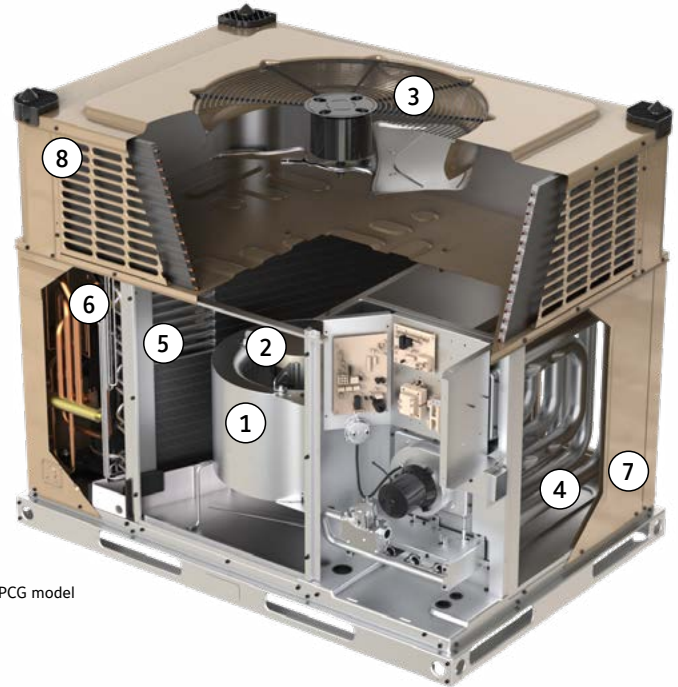

Improved comfort and optimized efficiency – Our high efficiency 16 SEER units offer up to two stages of cooling and heating control.

Rigorous testing – Our product is exposed to highly accelerated life testing in temperatures ranging from 125 degrees Fahrenheit to 20 degrees below zero.

Package Cooling and Heating Units

	ENERGY STAR® Certified 16 SEER	Standard Efficiency 14 SEER
Models	PCE6, PCG6	PCE4, PCG4, PCG4 Ultra-Low NOx
Tonnage Range	2-5 Tons	
Efficiency	16 SEER/ 81% AFUE (PCG6)	14 SEER/ 81% AFUE (PCG4)
Phase	Single- and Three-phase	

**Affordable efficiency.
Advanced performance.
Industry-leading quality.**

PCG model

Thoughtful design – Our units are designed for easy access and connections. This makes them quick and easy to install and service, which saves you money.

Package Heat Pumps

	ENERGY STAR® Certified 16 SEER	Standard Efficiency 14 SEER
Models	PHE6, PHG6	PHE4, PHG4
Tonnage Range	2-5 Tons	
Efficiency	16 SEER/ 8.2 HSPF 81% AFUE (PHG6)	14 SEER/ 8.0 HSPF 81% AFUE (PHG4)
Phase	Single- and Three-phase**	

**PHG6 and PHG4 are available in single-phase models only.

Industry-leading warranties

Product registration required.

Delivering reliability and quality right from the heart of America.

Our network of SOURCE 1™ supply centers provides easy access to genuine, factory-authorized service parts
