

TRANQUILITY[®] WATER-TO-WATER SYSTEM BROCHURE

TRANQUILITY® WATER-TO-WATER SYSTEM

ClimateMaster Industry Standards

ClimateMaster works closely with the Energy Star, International Standards Organization (ISO), the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), to ensure that our equipment not only meets the highest performance standards, but meets the highest industry standards as well.

Leading Technology

ClimateMaster Tranquility® Water to Water system TBW and TCW are your home heating solutions for a wide variety of hot water needs. Domestic hot water, in-floor radiant heating or even snow melt applications are possible.

Comfortable Efficiency

- Need cooling? Not a problem. This innovative system can be configured for double duty, delivering chilled water for cooling applications.
- The Tranquility Water-to-Water system makes it easy to serve multiple zones from a single unit. Capacities ranging from 3 to 10 tons are available.
- An external fixed speed flow controller allows for piece of mind that your Water-to-Water system is running at peak performance.

Affordable Savings

- Extra high efficiency produces significant energy savings.
- Consistent geothermal (below ground) temperature reduces system energy use.
- Variable Water Flow provides optimal, maximized efficiency by eliminating temperature swings which can save over \$100 per year in an average 2000 square foot home.
- Optional hot water generator can lower home water heating costs.

TRANQUILITY® WATER-TO-WATER SYSTEM SUSTAINABILITY

Powered by the temperature of the Earth instead of fossil fuels.

Roughly 75% to 80% of heat supplied comes directly from the earth and is clean, free and renewable.

Little or no CO₂ emissions help to lower your carbon footprint.

ClimateMaster Financing

Take advantage of our affordable financing options. Contact your local ClimateMaster dealer today to explore the wide array of financing options at their disposal. With financing your geothermal system can pay for itself with the energy savings. Start enjoying the benefits of geothermal without breaking your budget.

We invite you to visit our website www.climatemaster.com or call 1-800-299-9747 to locate a dealer in your area.
