

Comfortmaker[®] 80% Ultra-Low NOx Gas Furnace

Performance Series
N80ESU

BACKED BY EXCEPTIONAL WARRANTIES

10 Year Parts Limited Warranty

Timely registration required. See warranty certificate for details and restrictions.

20 Year Heat Exchanger Limited Warranty

Timely registration required. See warranty certificate for details.

You get dependable comfort with every Comfortmaker product. We'll replace your unit if the heat exchanger fails within the covered period. We give you extra coverage in addition to a 10-year parts limited warranty.*

BUILT WITH STRENGTH

When you choose Comfortmaker® heating and cooling equipment, you get rugged reliability with energy-saving efficiency in every unit. Our products are 100% run tested, and we design our products to give you the best in engineering and quality manufacturing for lasting performance and comfort. It's our tradition to deliver products that exceed your expectations for enduring performance.

65% LOWER NOx EMISSIONS

The Comfortmaker Performance Series 80% ultra-low NOx gas furnace provides warm, winter heating with 65% lower nitrogen oxide (NOx) emissions than current low NOx models. NOx contributes to the formation of smog and acid rain and the deterioration of water quality. The Performance Series 80% ultra-low NOx gas furnace is a great choice for environmentally-conscious homeowners.

A VERSATILE CHOICE FOR INDOOR COMFORT

The Comfortmaker ultra-low NOx gas furnace provides versatility to better match your home and your comfort preferences. During installation, your Comfortmaker dealer can setup the blower fan for optimized airflow based on the heating and cooling needs for your home. To create a traditional, year-round comfort system, pair this furnace with a Comfortmaker air conditioner. Or, for even greater energy savings, match it with a compatible thermostat and Comfortmaker heat pump for a dual fuel system. With a dual fuel system, you'll enjoy enhanced heating efficiency because the system automatically selects the most energy-efficient fuel source for heating based on conditions at that time.

WHAT SETS COMFORTMAKER GAS FURNACES APART?

- Fixed-speed constant torque ECM blower motor can be set to optimize airflow and comfort, based on the heating needs of your home while reducing the electrical consumption compared to a standard PSC furnace
- 80.0% AFUE (Annual Fuel Utilization Efficiency) heating
- Create a dual fuel system with our Performance Series 80% ultra-low NOx gas furnace and a compatible thermostat and Comfortmaker heat pump
- Stainless steel tubular heat exchangers offer superior corrosion resistance and heat conversion
- Blocked vent protection shuts down furnace operation if a common vent is obstructed

* 10-Year Parts Limited Warranty: Timely registration required for 10-year parts limited warranty and lifetime limited heat exchanger warranty. Limited warranty period is 5 years for parts and 20 years for heat exchanger if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

All systems tested and listed by the appropriate agencies.
