PACKAGED HEATING & COOLING SYSTEMS

COMBINED COMFORT

Featuring

RO454B

Models
PAB4, PGB4

COMFORT WITH CONFIDENCE

When you choose Comfortmaker heating and cooling equipment, it means your home comfort is backed by superior engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you exceptional quality, energy efficiency and reliability. We deliver products that deliver home comfort you can enjoy with confidence.

WHAT IS A PACKAGED SYSTEM?

Comfortmaker packaged all-in-one units are designed for heating and/or cooling comfort in one superior packaged product. The units stay enclosed outside or on roofs and come in a variety of combinations to deliver ultimate year-round comfort. The PAB4 is our Performance packaged air conditioner, while the PGB4 is our Performance packaged gas furnace/air conditioner combination unit.

WHAT MATTERS IN A PACKAGED SYSTEM?

ENERGY SAVINGS

SEER2 (Seasonal Energy Efficiency Ratio) measures the cooling efficiency of air conditioners during an average cooling season. EER2 (Energy Efficiency Ratio) measures cooling efficiency during a set temperature (95° F). AFUE (Annual Fuel Utilization Efficiency) measures the heating efficiency of a gas furnace. For each of these ratings, the higher the number, the greater the potential for energy savings. Performance Series packaged air conditioners and packaged gas furnace/air conditioners offer 14.3 SEER2/11.0 EER2 cooling. The packaged gas furnace/air conditioner also reaches 81% AFUE heating.

YEAR-ROUND COMFORT

Enjoy year-round comfort with the efficient PGB4 packaged gas furnace/electric air conditioner. It delivers reliable temperatures every season, from the hottest days to the coldest nights of the year. The multi-speed blower motor helps improve temperature control and dehumidification for enhanced comfort.

Hot and humid weather is no match for our efficient PAB4 packaged air conditioner that features a multi-speed blower motor that quietly delivers better home cooling comfort and helps keep humidity in check.

RUGGED BUILD

Built for lasting durability with pre-painted steel cabinets and dense wire coil guards to protect the outdoor coil. The evaporator coil is made of quality aluminum for longer lasting corrosion resistance.

ENVIRONMENT

With R-454B refrigerant, Comfortmaker proudly displays our commitment to environmental stewardship. It's a refrigerant that delivers a 75% decrease in global warming potential while maintaining the non-ozone depleting properties of R-410A.

PEACE OF MIND

Rest easy with a 3-Year No Hassle Replacement™ limited warranty. Our No Hassle Replacement limited warranty backs every Comfortmaker Performance PAB4 and PGB4 packaged system. It means comfort with no questions. We'll replace your unit if the compressor or condenser coil fails within the covered period.* This provides extra coverage in addition to a 10-year parts limited warranty.**

* See warranty certificate for complete details and exclusions.

** Timely registration required for 10-year parts limited warranty and lifetime heat exchanger limited warranty. Limited warranty period is five years for parts and 20 years for heat exchanger if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. Please see warranty certificate for further details and restrictions.

All systems tested and listed by the appropriate agencies.
