**Day & Night® Packaged  
Heating & Cooling Systems**

**CONSTANT COMFORT® SERIES  
PAR5/PGR5, PGS4/PAD4**

## BUILT WITH STRENGTH

When you choose Day & Night® heating and cooling equipment, you'll refresh your home with the latest in home comfort. Each unit is 100% run tested, and we design our products to give you the best in quality, energy efficiency and reliability. We take pride in delivering high efficiency and innovative design that exceeds your expectations for comfort every hour, every season.

## BACKED BY EXCEPTIONAL WARRANTIES

The only No Hassle Replacement™ Limited Warranty that you'll find in the industry backs every Day & Night Constant Comfort® product. It means comfort with no questions. We'll replace your unit if the compressor, heat exchanger or coil fails within the covered period. We give you extra coverage in addition to a 10-year parts and compressor limited warranty.\*

## CONSTANT COMFORT® PACKAGED SERIES

The Constant Comfort® Packaged Product Series offers our best comfort in every season, from the highest efficiency to the budget-friendly with single- and two-stage heating and cooling, as well as efficient blower motors that deliver quiet comfort.

*\*To the original owner, Day & Night packaged products are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is 5 years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details.*

## WHAT IS A PACKAGED SYSTEM?

Day & Night packaged all-in-one units are designed for the best durability and comfort. The units stay enclosed outside or on roofs and come in a variety of combinations: dual fuel gas furnace/heat pump, gas furnace/air conditioner, electric heat pump and electric air conditioner.

Air Conditioner

## WHAT SETS DAY & NIGHT® UNITS APART?

1. Copper/aluminum coils and quality copper tubing with TVX for proper flow of refrigerant.
2. High- and low-pressure switches to protect system.
3. ECM indoor blower motor provides efficient airflow.
4. Scroll compressor requires no pistons and few moving parts to give you quiet operation along with efficiency (PGR5/PHR5/PAR5 features a two-stage scroll compressor.)
5. Tin-coated copper evaporator coil (main tubes) for superior durability.
6. Control panels allow for quicker, easier service access.
7. Rugged pre-painted steel cabinet, full perimeter metal-base rails, and wire grilles to protect the coil.
8. Advanced electronic integrated defrost control switches quietly from cooling to heating—and keeps coils more efficient during operation. (Heat Pump only)

## WHAT MATTERS IN A PACKAGED SYSTEM?

Get the most out of a packaged system by choosing the product that fits your comfort needs. All of our packaged products feature comfort-enhancing and durable features to deliver lasting performance. For greater efficiency in a unit, look for two-stage heating or cooling operation. Our toughest units feature wire hail guard grilles, tin-plated copper evaporator coil tubing, and stainless steel heat exchangers (in gas heating units). And our No Hassle Replacement™ limited warranty is offered on our premium products to give you peace of mind. Day & Night packaged units offer money savings, increased comfort, durable performance and quiet operation.

## PACKAGED EFFICIENCY RATINGS—WHAT DO THEY MEAN?

**Seasonal Energy Efficiency Ratio (SEER)**—Measures the cooling efficiency of air conditioners and heat pumps during an average cooling season. The higher the SEER, the greater the energy economy.

**Heating Seasonal Performance Factor (HSPF)**—Measures the heating efficiency of heat pumps. The higher the HSPF, the greater the efficiency and energy savings potential during heat pump heating.

**Energy Efficiency Rating (EER)**—Measures the cooling efficiency of air conditioners and heat pumps during a set temperature (95° F).

**ENERGY STAR®**—A U.S. Environmental Protection Agency program to identify and promote energy-efficient products in order to reduce energy consumption.

**Annual Fuel Utilization Efficiency (AFUE)**—Measures the heating efficiency of a gas furnace. The higher the AFUE, the greater the gas heating efficiency and energy savings potential.

## SEER vs. Cooling Cost Savings

Percentage based on national averages at 10 SEER; may vary according to efficiency of current unit and installation.

## Benefits of Two-Stage Operation

Increases Comfort by Significantly Reducing Hot and Cold Temperature Swings

Typical Single-Stage Operation ———  
Two-Stage Operation ———

### PAR5 CONSTANT COMFORT® DELUXE 16 PACKAGED AIR CONDITIONER

- Up to 16 SEER/12.5 EER cooling efficiency
- Two-stage cooling for the best temperature control and dehumidification
- High-efficiency multi-speed ECM blower motor
- 5-Year No Hassle Replacement™ Limited Warranty

### PAD4 CONSTANT COMFORT® 14 PACKAGED AIR CONDITIONER

- 14 SEER/11 EER cooling efficiency
- Multi-speed ECM blower motor for improved temperature control and dehumidification
- Efficient single-stage scroll compressor
- 3-Year No Hassle Replacement™ Limited Warranty

### PGR5 CONSTANT COMFORT® DELUXE 15 PACKAGED GAS FURNACE/AIR CONDITIONER

- 81% AFUE heating efficiency
- Up to 16 SEER/12.5 EER cooling efficiency
- Two-stage heating for the best temperature control and dehumidification
- High-efficiency multi-speed ECM blower motor
- 5-Year No Hassle Replacement™ Limited Warranty

### PGS4 CONSTANT COMFORT® 14 PACKAGED GAS FURNACE/ AIR CONDITIONER

- 81% AFUE heating efficiency
- 14 SEER/11 EER cooling efficiency
- Multi-speed ECM blower motor for improved temperature control and dehumidification
- Efficient single-stage scroll compressor
- 3-Year No Hassle Replacement™ Limited Warranty

Many models are ENERGY STAR® qualified. Ask your contractor for details or visit [www.energystar.gov](http://www.energystar.gov).

Timely registration required for 10 year parts limited warranty and lifetime heat exchanger limited warranty. Limited warranty period is 5 years for parts and 20 years for heat exchanger if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

Tin-coated copper evaporator coil and stainless steel heat exchanger (if applicable) are required to receive the No Hassle Replacement™ limited warranty and is indicated in the model number. See warranty certificate for details.

**IMPORTANT NOTE:** All Constant Comfort® small package systems have either a TP or GP in the 11th and 12th position of the model number, representing the tin-coated copper evaporator coil (main tubes) feature. All Constant Comfort gas/electric or dual fuel models also use an S or an R in the 3rd position of the model number, representing the stainless steel heat exchanger feature. See warranty certificate for further details.

All systems tested and listed by the appropriate agencies.

ISO 9001: 2000 Registered
