High-Efficiency Air Conditioners

Up to 19.0 SEER2 Performance

Reliability and Performance You Can Trust

Introducing the S-SERIES System - A new way of thinking about HVAC.

The EverRest Elite ASXS6 S-SERIES is a slim side discharge inverter system that provides a premium mid-efficiency solution at an affordable price. It connects to traditional ducted equipment with ease, and the slim profile provides a solution when traditional cube style options cannot.

The S-SERIES System offers the same high-quality design, performance, and features as standard systems, but at a fraction of their size. And the Inverter technology helps the system run at an energy-conserving level, despite the outdoor climate conditions, keeping your home at your desired comfort level.

How the EverRest Elite Series makes your home comfort decision easier.

The purchase of an home comfort system is not one to be taken lightly. However, it's one you can make with an air of confidence when you consider all that distinguishes the trusted EverRest Elite Series.

- **Comforting Craftsmanship** - Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards—these attributes define the EverRest Elite brand. Assembled in facilities in Texas, EverRest Elite brand air conditioners are built to last and last and last.
- **Energy Efficiency** - Energy efficiency equates to cost savings. Your EverRest Elite brand Air Conditioner offers up to 19.0 SEER2 energy-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost.
- **Confidence-Inspiring Compressor** - With EverRest Elite brand air conditioners, your comfort and savings start with a high-efficiency compressor designed to provide years of reliable cooling comfort.
- **Quiet Performance** - You can be assured that your EverRest Elite brand air conditioner will provide you with quiet operation. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially designed sound-control top.
- **Efficient Cooling Capacity** - Five-millimeter, refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-32 refrigerant.
- **Heavy-Gauge Galvanized Steel Enclosure** - With advanced fan design, it provides dependable, quiet airflow across the condensing coil.

Feel the difference with Comfort Speed inverter technology

The EverRest Elite Series AXV9S and AXVS6 high-efficiency air conditioners include Comfort Speed Inverter Technology. The inverter energy management technology adjusts the power and speed levels automatically to use the least amount of energy required to maintain the temperature set on the thermostat. When more power or speed is needed, the inverter technology increases output performance. When the set temperature is achieved, the inverter technology automatically calculates the lowest amount of energy required to maintain your indoor comfort.

Thanks to inverter technology, the EverRest Elite Series can increase efficiency by up to 30% or more compared to conventional fixed-speed systems providing additional opportunities to save on monthly energy bills. The result is high-efficiency operation and unmatched home comfort!

Reliability and Performance You Can Trust

Relax, with the EverRest Elite Series, reliable, long-lasting product performance is our top priority. Through rigorous quality assurance scrutiny, superior craftsmanship and world-class manufacturing processes, we make sure that each EverRest Elite Series product is the best it can be. Plus, we've added the most advanced technologies available for home HVAC systems. Some of those technologies include:

ComfortBridge™ Technology

When your new AXV9S or AXT7C air conditioner is paired with an EverRest Elite Series gas furnace with ComfortBridge technology, performance data from the split system is gathered and used to make automatic adjustments that may help reduce the amount of energy used to cost-effectively operate at peak performance and achieve your selected home comfort! ComfortBridge systems also feature advanced diagnostics which constantly monitor your air conditioner system, reducing failures and pinpointing trouble spots for a fast fix.

Copeland® CoreSense™ Diagnostics

All EverRest Elite Series single stage models feature Copeland CoreSense Diagnostics. CoreSense constantly monitors the performance of your air conditioner, providing insight into accurate troubleshooting, quick diagnosis and repairs. Using the compressor as a sensor, CoreSense Diagnostics delivers active protection and will proactively shut the system down should it detect conditions that could damage to compressor. As a result, catastrophic failures and extensive, costly repairs are often avoided.

Premium Durability and Efficiency

Compare the features and benefits of an EverRest Elite Series central air conditioning system and you will discover why more and more homeowners choose the EverRest Elite Series brand.

To receive the 10-Year Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California.

The security of the EverRest Elite brand's amazing, limited warranties*

When you choose the EverRest Elite brand, you can rest assured that you'll receive a refreshingly affordable product that's covered by what many consider to be the best product warranties in the heating and cooling industry. Most of our HVAC products feature a 10-Year Unit Replacement Compressor Limited Warranty, while all include a 10-Year Parts Limited Warranty. These warranties offer homeowners a high level of purchase protection; now, that's the stuff of legend.

ASURE
EXTENDED SERVICE PLAN

The One-time Unit Replacement coverage and One-time Compressor Replacement coverage is available to the original homeowner for years 11-99 after the installation date. Ask your dealer for complete details about the ASURE Extended Service Plan options or visit our website at www.EverRest.com for full details.

ENERGY STAR Certified

The EverRest Elite Series brand ALXT7C, ALXS5B and ALXS4B models are recognized as ENERGY STAR rated, preventing greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency. Proper sizing and installation of equipment is critical to meet ENERGY STAR criteria and achieve optimal performance. Visit www.energystar.gov or ask your contractor for complete details.
