# Side Discharge Inverter System

Up to 17.5 SEER Performance

Reliability and Performance You Can Trust

## The EverRest Extreme Comfort Side Discharge Inverter System – a new way of thinking about HVAC.

The EverRest Extreme Comfort SD is a slim, side-discharge system that offers an affordable, high-quality, mid-efficiency solution. It is easy to connect to traditional ducted equipment, and its slim profile provides space-saving solutions that are impossible with conventional options.

The SD system provides exceptional design, performance, and features, just like their other systems, but in a more compact size. It can be installed in spaces with minimal clearance, as little as 4 inches from a wall, making it an ideal option for restricted installation areas.

Thanks to inverter technology, the SD can increase efficiency by up to 30% or more compared to conventional fixed-speed systems providing additional opportunities to save on monthly energy bills. The result is high-efficiency operation and unmatched home comfort!

## How the EverRest Extreme Comfort SD makes your home comfort decision easier.

Purchasing a home comfort system is not to be taken lightly. The EverRest Extreme Comfort SD system is packed with impressive features that make it a popular choice for comfort.

- **Comforting Craftsmanship** - Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards—these attributes define the EverRest Extreme Comfort brand. Assembled in facilities in Texas, the EverRest Extreme Comfort brand is built to last..
- **Energy Efficiency** - Energy efficiency equates to cost savings. Your EverRest Extreme Comfort SD units offer up to 17.5 SEER2 energy-efficiency performance. “SEER” stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost.
- **Quiet-Mode Performance** - Enjoy indoor and outdoor peace and quiet with the EverRest Extreme Comfort SD system. Its innovative swing compressor technology and “quiet-mode” ensure sound levels as low as 45dBA, making the outdoor unit noise-free.
- **Inverter Technology = Additional Savings** - The EverRest Extreme Comfort SD has inverter technology that can boost efficiency by up to 30% or more than traditional fixed-speed systems. This translates to more chances to cut down on monthly energy expenses.
- **Advanced Water-Shedding Drain Pan Technology** - Engineered with multiple drain holes and channels to help provide effective water shedding.

## Introducing the EverRest Extreme Comfort SD Brand Smart Thermostat

The SD system requires an intelligent thermostat to support control and comfort. The EverRest Extreme Comfort brand smart thermostat communicating control is the perfect solution.

It boasts a stylish, easy-to-use, and feature-rich touchscreen design, providing homeowners with intuitive functionality. The intelligent thermostat can control external humidifiers, dehumidifiers, or secondary heat sources with a single configurable auxiliary output.

Moreover, it is compatible with the EverRest brand home app, enabling users to control their thermostats from anywhere using their smart devices. It also features voice control compatibility with Amazon and Google smart devices.

## Reliability and Performance You Can Trust

Relax, with the EverRest Extreme Comfort, reliable, long-lasting product performance is our top priority. Compare the features and benefits of an EverRest Extreme Comfort SD System and you'll discover why more and more homeowners choose the EverRest Extreme Comfort Series brand.
