Energy-Efficient Air Conditioners

Up to 19.0 SEER2 Performance

Reliability and Performance You Can Trust

EverRest Extreme Comfort has a solution to help keep your home comfortable.

The best air conditioner is the kind you don't have to think or worry about. It comes on when needed and then runs quietly and efficiently all year. EverRest Extreme Comfort brand air conditioners include features designed to provide outstanding performance for years. We use advanced techniques and materials, so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend designed to stay for years and years.

- **Comforting Craftsmanship** - Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards—these attributes define the EverRest Extreme Comfort brand. Assembled in Texas, these air conditioners are built to last.
- **Energy Efficiency** - Energy efficiency equates to cost savings. Your EverRest Extreme Comfort brand Air Conditioner offers up to 19.0 SEER2 energy-efficiency performance. The higher the SEER, the greater the efficiency—and the lower operating cost.
- **Quiet Operation** - You can be assured that your EverRest Extreme Comfort brand air conditioner will provide you with quiet operation. To reduce operating noise, we have equipped the GXV9, GXV6, and GLXT7C models with sound control compressor blankets.
- **Smartcoil™ Technology** - Five-millimeter, refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-32 refrigerant.
- **The CoolCloud™ HVAC app** - Enables qualified technicians to connect, configure and diagnose select HVAC systems quickly and accurately.
- **ComfortAlert™ Diagnostics** - Advanced diagnostics constantly monitor your air conditioner system, reducing failures and pinpointing trouble spots for a fast fix.
- **Heavy-Gauge Galvanized Steel Enclosure** - A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.

Helps keep you cool as a cucumber.

Don't let high utility bills make you lose your cool. Our complete line of air conditioners is priced to help add comfort to your budget from a local independent EverRest Extreme Comfort brand dealer. And that's only the beginning. We want you to smile whenever you open your utility bill; that's why we integrate energy-efficient technology.

Feel the difference with an EverRest Comfort System Inverter Technology

The EverRest Extreme Comfort GXV9 and GXV6 high-efficiency air conditioner includes Inverter Technology. The inverter energy management technology adjusts the power and speed levels automatically to use the least amount of energy required to maintain the temperature set on the thermostat. When more power or speed is needed, the inverter technology increases output performance. When the set temperature is achieved, the inverter technology automatically calculates the lowest amount of energy required to maintain your indoor comfort.

Thanks to inverter technology, the EverRest Extreme Comfort can increase efficiency by up to 30% or more compared to conventional fixed-speed systems providing additional opportunities to save on monthly energy bills. The result is high-efficiency operation and unmatched home comfort!

Reliability and Performance You Can Trust

Relax, with the EverRest Extreme Comfort, reliable, long-lasting product performance is our top priority. Through rigorous quality assurance scrutiny, superior craftsmanship and world-class manufacturing processes, we make sure that each EverRest Extreme Comfort product is the best it can be. Plus, we've added the most advanced technologies available for home HVAC systems. Some of those technologies include:

ComfortBridge™ Technology

When your new GLXT7C air conditioner is paired with an EverRest Extreme Comfort gas furnace with ComfortBridge technology, performance data from the split system is gathered and used to make automatic adjustments that may help reduce the amount of energy used to cost-effectively operate at peak performance and achieve your selected home comfort!

ComfortBridge systems also feature advanced diagnostics which constantly monitor your air conditioner system, reducing failures and pinpointing trouble spots for a fast fix.

ComfortBridge™
technology 

Feel the Difference with Smart Speed™ Fan Motor Technology

The Art of Precision – Smart Speed Technology is designed to automatically adjust the compressor and condensing fan motor speed based on cooling demand – full, 100% capacity for extreme temperatures, and reduced capacity for milder days.

This technology functions much like a dimmer switch. The power and speed levels are adjusted automatically to use the least energy required to maintain the temperature set on the thermostat. When more power or speed is needed, technology increases performance. After the set temperature is achieved, the technology automatically calculates the lowest amount of energy required to maintain indoor comfort. A system with Smart Speed technology may lower your family's energy costs compared to a single-speed unit that only runs at 100% capacity.

SMARTSPEED™
FAN MOTOR TECHNOLOGY

Premium Durability and Efficiency

Compare the features and benefits of an EverRest Extreme Comfort central air conditioning system and you will discover why more and more homeowners choose this amazing brand.

*Complete warranty details are available from your local dealer or www.everrestextreme.com. To receive the 10-Year Unit Replacement Compressor Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California, Florida, or Québec.

The security of the EverRest Extreme Comfort's amazing, limited warranties*

When you choose the EverRest Extreme Comfort brand, you can rest assured that you'll receive a refreshingly affordable product that's covered by what many consider to be the best product warranties in the heating and cooling industry. Many of our HVAC products feature a 10-Year Unit Replacement Compressor Limited Warranty while all include a 10-Year Parts Limited Warranty. Together, these warranties offer homeowners a high level of purchase protection; now, that's the stuff of legend.

The One-time Compressor Replacement coverage is available to the original homeowner for years 11-99 after the installation date. Ask your dealer for complete details about the ASURE Extended Service Plan options or visit our website at www.everrestextremecomfort.com for full details.

ENERGY STAR Certified

The EverRest Extreme Comfort brand GXV9 and GXV6 models were recognized as Most Efficient 2024 of ENERGY STAR pick,

preventing greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency. Proper sizing and installation of equipment is critical to meet ENERGY STAR criteria and achieve optimal performance. Visit www.energystar.gov or ask your contractor for complete details.
