GeneralAire® MAC
Air Cleaners

Air Cleaners
Residential Whole-House (GFI #'s on Back)

Breathe Healthier

Remove Harmful Particulates From Indoor Air.

Installing a quality GeneralAire® Air Cleaner can reduce allergy and asthma symptoms and improve other chronic health conditions adversely affected by harmful particulates in your home's air.

How The MAC Air Cleaner Works:

Air passes through your new MAC Air Cleaner where particulates are captured within the fibers of the filter media. The air leaving your MAC Air Cleaner is healthier and safer for your family.

Details inside or go to: www.generalfilters.com/MACseries

Maintenance

Maintenance of your new GeneralAire® MAC Air Cleaner is minimal. To ensure peak performance and reliable operation, simply replace your filter media once each 6-12 months. Go to www.generalfilters.com / support center / video library to watch a video about how to change the filter.

Install An Air Cleaner In Your Home To:

Improve Your Health:

Studies show poor indoor air quality is linked to heart disease, high blood pressure, cancer, diabetes, asthma, Alzheimer's, and many more chronic diseases. Ensure good health with a quality air cleaner.

Reduce Allergy Symptoms:

Pollen is a major allergen that can cause miserable symptoms such as a runny nose, itchy eyes, sneezing and more. Skin flakes, urine and saliva from pets can all become airborne.

Why A Whole-House Unit?

- Treats Your Whole House 24 / 7 / 365
- Requires Minimal Maintenance
- Out of Site
- Quiet
