

QUIETCOMFORT® SERIES

DUCTLESS HEAT PUMPS

THE COOLEST THING IN COMFORT

Featuring

RO454B

Models: D5CMRAH,
D5CLRAH, D5CSRAH

WHY ARE SO MANY HOMEOWNERS GOING DUCTLESS?

Whether you're adding an extra room or converting an attic into a living space, you want your home renovation to be as comfortable as possible. Ductless systems deliver ultra-quiet and efficient comfort for practically any space and style. They also help eliminate hot and cold spots, making them ideal for garages, sunrooms, attics, additions and more.

Environment

Heil® is committed to providing our planet and people with a better future by offering the best refrigerant for each application. After years of research, development and field trials, we will be transitioning to the use of R-454B, with a 75% reduction in global warming potential.

Comfort Technology

Heil ductless systems automatically adjust their compressor speed to match changing conditions, keeping your home consistently comfortable while using less energy. And with reliable performance in outdoor temperatures from -13°F to 122°F, you'll enjoy year-round comfort no matter the season.

Efficiency

Our QuietComfort® Series units deliver up to 26.0 SEER2 and 13.9 HSPF2 ratings. And with ENERGY STAR® certifications on a number of ductless models, Heil ductless systems provide improved temperature regulation, increased energy and cost savings.

Personalized Comfort

Connect up to six indoor units to a single outdoor unit—to deliver individualized temperature control in every room of your home. Once you decide what temperature you'd like a specific zone (or room) to be, the system will quietly maintain that temperature.

Whisper Quiet Operation

Ultra-quiet operation reduces noise pollution both indoors and out for more peaceful, comfortable spaces.

Durability

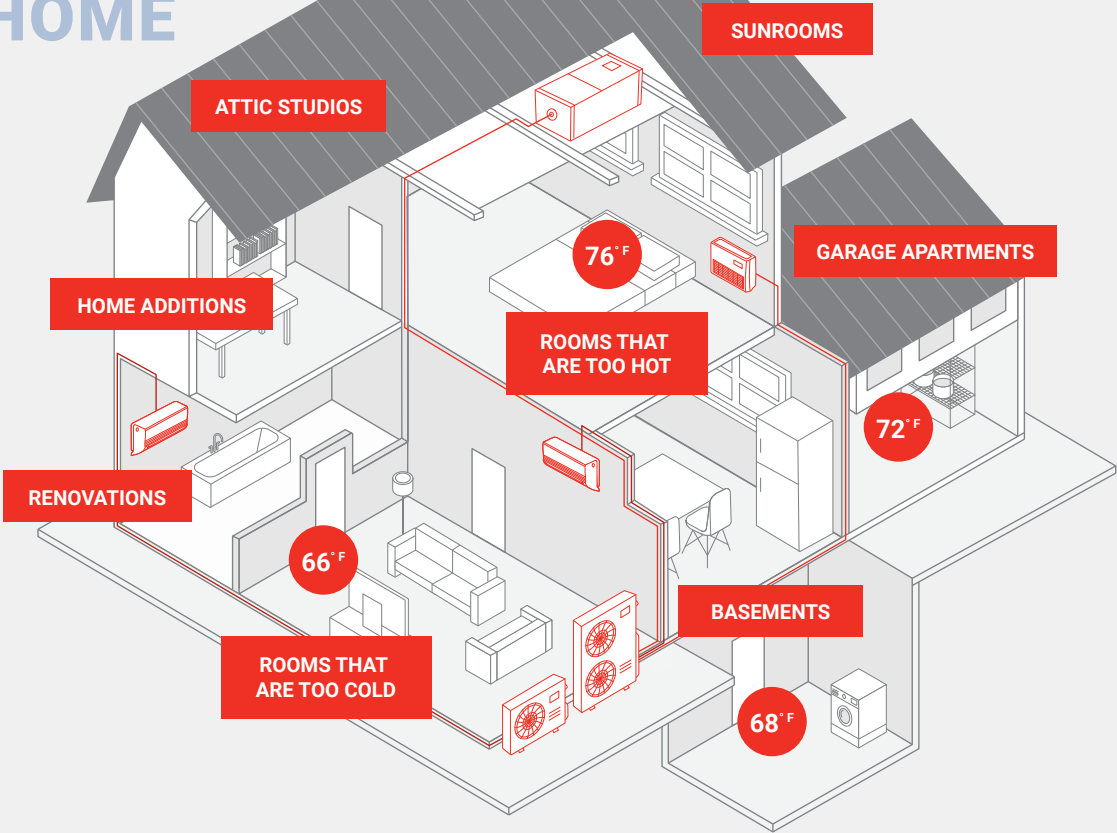

QuietComfort heat pumps are constructed with heavy-gauge galvanized steel for long-lasting operation. A baked-on, powder-coated finish add extra protection against long winters and hot summers, helping your system stay looking great and performing well for years.

No Hassle Warranty

To the original owner, the Heil QuietComfort Series equipment qualifies for a 5-year No Hassle Replacement™ limited warranty. It means comfort with no questions. We'll replace your unit if the compressor or coil fails within the covered period.** This provides extra coverage in addition to a 10-year parts limited warranty.***

CUSTOM COMFORT FOR EVERY ROOM OF YOUR HOME

A FULL SPECTRUM OF COMFORT

Heil ductless systems come in all shapes and sizes. See how our QuietComfort Series delivers energy efficient comfort and industry-leading technology in a cost-effective package.
