THE DIFFERENCE BETWEEN HOT, COLD & COMFORTABLE

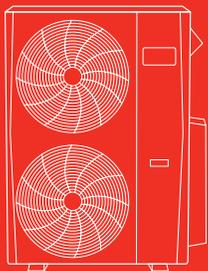

Ductless, also called a mini-split, is an extraordinary HVAC system that makes any room comfortable at the push of a button. It's free from long, expansive ductwork. Instead, ductless circulates conditioned refrigerant between an indoor unit and an outdoor unit connected by copper refrigerant tubing and electrical wiring. Additionally, no ductwork means less precious air loss due to leaks. Plus, it delivers a climate-controlled experience directly into one or many rooms of your choice.

WITH HEIL, ROOM-TO-ROOM CLIMATE CONTROL IS A BREEZE

Say goodbye to inconsistent, inaccurate energy distribution. Heil ductless systems provide an efficient, flexible and customizable heating and cooling solution for a single area of a home or business. Our multi-zone solution individually manages several different zones using one integrated system of indoor and outdoor units.

Single zone systems provide comfort for areas with as little as 350 and as much as 3,000 square feet—like small offices and bedrooms, or big living and cooking areas.

Multi-zone systems can connect as many as five indoor units to a single outdoor unit—with comfort all around the house, using individual controls for zoning and energy savings.

FLEXIBLE & CUSTOMIZABLE

Streamlined, flexible design makes Heil ductless systems an ideal solution for many spaces and applications, from new additions and old homes to rooms with insufficient climate control.

- New construction and renovations
- Historic or older homes/buildings with no ductwork
- Rooms that are often too hot or too cold
- Basements, attics, garages, and additions
- Multi-family developments, assisted living facilities, hotels, and more

ENERGY EFFICIENT

With no ductwork needed, the system doesn't experience the normal energy loss of a traditional HVAC system. Furthermore, indoor units control individual rooms—heating and cooling spaces only when they're in use. This amounts to significant savings on energy bills.

Our ductless systems utilize inverter compressor technology—allowing each unit to continuously adjust heating and cooling capacities to best match a room's current condition.

EASY INSTALLATION

Since no ductwork is necessary, **ductless is the right solution for the most challenging environments.** Installation is quick, non-intrusive and minimally disruptive to your home or business.

- Indoor units enter the house through a 3-inch pipe. And they're powered by the outdoor unit, so no additional wiring or electrical required.

CONTROL COMFORT FROM ANYWHERE

All indoor units can be made Wi-Fi® compatible with our Wi-Fi® accessory kit. Control and monitor your system on the go with the Midea Air app—available from the App Store® and Google Play™. Features are intuitive and easy to navigate.

***Not all products are Wi-Fi® enabled**

SMART TECHNOLOGY DESIGNED WITH YOU IN MIND

Integrated sensors can direct airflow toward specific individuals in the room, with the ability to link to third-party thermostats for personalized control.

EASY-TO-CLEAN AIR FILTERS

Our filters are specifically manufactured for cleaner air quality and reduced allergens. The filtration systems also allow for easy cleaning and replacing.

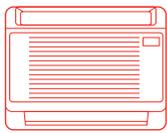

THE SWEET SPOT BETWEEN COLD FRONTS & HEAT WAVES

Show extreme temperatures who's boss.

Our solutions deliver quality performance across a broad range of environments for year-round comfort control. In fact, our ductless systems can heat in temperatures as low as -22° F and cool in those as high as 122° F.

High wall: This is the perfect unit for open floor plans, such as a living room, where air easily circulates, and foot traffic is high. Since it sits high on the wall, the unit stays out of the way to give your room more usable space.

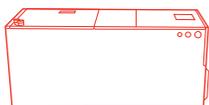

Console: Choose this unit for areas like a sunroom or finished attic, with shorter walls and minimal insulation. This unit sits about six inches off the floor as to not obstruct your view or lighting.

Ducted: This unit is great when you want to leverage the same ductwork for two or more small spaces, like a bathroom and a closet. It can be installed in the ceiling, floor, or wall to keep the unit hidden while still getting the flexibility of a ductless system.

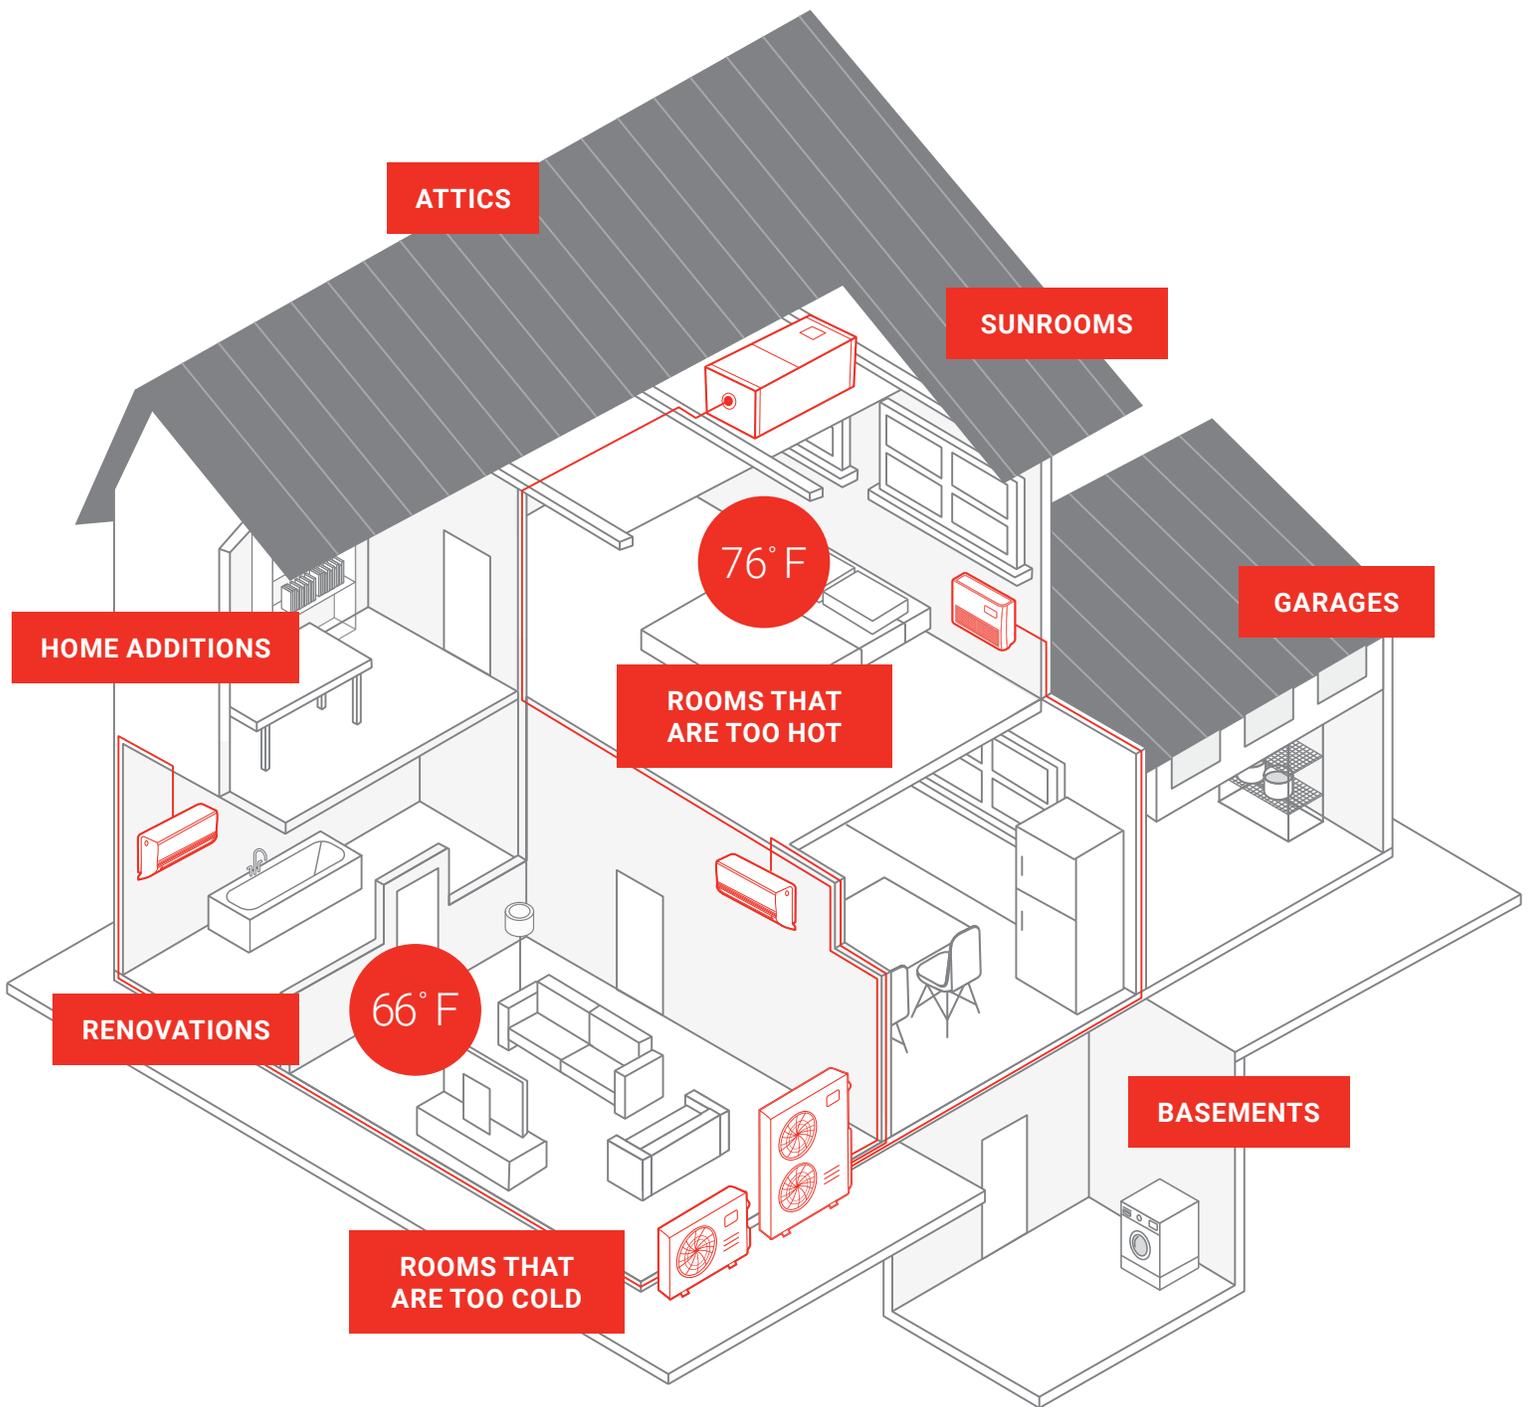

Cassette: This is a great solution when you need four-way directional air flow, like in a home office. The unit recesses into the ceiling and can be placed in the center of the room for optimal comfort and control.

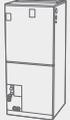

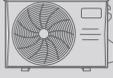

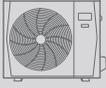

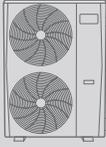

Air Handler: A ductless unit that leverages existing ductwork. A perfect replacement for aging or failing furnaces. Enjoy the benefits of ductless technology without completely overhauling your current systems.

Outdoor units can be strategically placed to minimize noise heard in living spaces or from patios or outdoor gathering spaces. Narrow cabinets make installation possible in small outdoor spaces or on small lots.

The Right Product for the Right Application

SINGLE ZONE RESIDENTIAL

DLCPRB Outdoor Unit

Up to 27.0 SEER2
Up to 17.5 HSPF2
Sizes: 09 / 12 / 18

DLFPHB High Wall

Sizes: 09 / 12

DLFPHB High Wall

Size: 18

DLCSRB Outdoor Unit

Up to 28.1 SEER2
Up to 13.6 HSPF2
Sizes: 06 / 09 / 12 / 18 / 24 / 30 / 36

DLFSHC High Wall

Sizes: 06 / 09 / 12 / 18 / 24 / 30 / 36

DLFSOAH One-Way Cassette

Sizes: 06 / 09 OR 12 / 18

DLFSCA Cassette

Sizes: 09 / 12 / 18

DLFSCB Cassette

Size: 24

DLFSDA Ducted

Sizes: 09 / 12 / 18 / 24

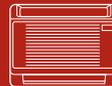

DLFSDAH High Static Slim Ducted

Sizes: 09 / 12 / 18 / 24

DLFSAB Air Handler

Sizes: 18 / 24 / 30 / 36

DLFSFB Floor Console

Size: 12

DLFSFA Console

Sizes: 18 / 24

DLCERCA & DLCERBH Outdoor Unit

Up to 21.7 SEER2
Up to 9.4 HSPF2
Sizes: 09 / 12 / 18 / 24 / 30 / 36

DLFEHBA & DLFEHBH High Wall

Sizes: 09 / 12 / 18 / 24 / 30 / 36

AN EFFICIENT OUTDOOR UNIT FOR PEAK PERFORMANCE & ENERGY SAVINGS

FEATURES

- 100% Heating capacity at 0° F (-17° C) without wind baffles
- 100% Cooling capacity at -22° F (-30° C)
- Available in 208/230V
- Built-in basepan heater
- Auto-restart function
- Refrigerant leakage detection
- Quiet outdoor operation
- Anti-corrosive fin coating
- Piping length up to 164 ft (50m)
- Cooling operating range:
-22° ~ 122° F (-30° ~ 50° C)
- Heating operating range:
-22° ~ 75° F (-25° ~ 24° C)

COMPATIBLE WITH:

- DLFPHB High Wall (p 14)

Heat Pump with Basepan Heater

Inverter Compressor

Up to 27.0 SEER2

Up to 17.5 HSPF2

Sizes: 09 / 12 / 18

All systems are ENERGY STAR® certified based on indoor unit pairings

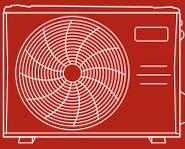

KEY FEATURES

Unrivaled Efficiency

With a SEER2 rating of up to 27.0 and a cooling operating range of -22° F to 122° F, this outdoor unit offers first-rate efficiency without compromising performance.

Virtually Silent Operation

Enjoy a more peaceful outdoor experience with a unit that's nearly silent—operating at as low as 54.0 dB(A).

DELUXE SERIES

DLFPHB HIGH WALL

Sizes 09 & 12

Size 18

FEATURES

- Modes: Cool, Heat, Dry, Fan, Auto
- Four Fan speeds including Turbo Mode
- Carbon Filter
- Sleep Mode
- Relative Humidity Sensor
- Intelligent Eye (Occupancy Sensor)
- ECO Mode
- Up-Down / Right-Left Louver control (fixed or swing)
- *Follow Me* (senses temperature at handheld remote)
- NEW Drop-Down Motor Feature (18K only)
- Heating Setback (46° F Heating Mode)
- Quiet indoor operation
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCPRB Outdoor Unit Single Zone (p 12)
- DLCMRB & DLCHB Outdoor Unit Multi-Zone (p 46)

HIGH WALL

Sizes: 09 / 12 / 18

All systems are ENERGY STAR® certified based on outdoor unit pairing

KEY FEATURES

Superior Comfort

With innovative features, like the Occupancy Sensor, airflow is directed toward or away from anyone in the room.

Top Tier Performance

Get the most out of a flexible, energy efficient unit with best-in-class performance and ultimate efficiency.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller KSACN0601AAA (7-Day Programmable) Sizes 09 / 12

Optional Wired Remote Controller KSACN0801AAA (7-Day Programmable) Size 18

Wireless Remote Controller

Optional Wired Controller KSACN0601AAA or KSACN0801AAA (7-Day Programmable)

See respective pages for performance data.

HEAT PUMP WITH BASEPAN HEATER

FEATURES

- 100% Heating capacity at -4° F (-20° C)*
- 100% Cooling capacity at -22° F (-30° C) without additional kit
- Available in 208/230V (6-36K) and 115V (12K)
- Built-in basepan heater
- Auto-restart function
- Anti-corrosive fin coating
- Piping length up to 213 ft (65m)
- Cooling operating range: -22° ~ 130° F (-30° ~ 55° C)
- Heating operating range: -22° ~ 86° F (-25° ~ 30° C)

COMPATIBLE WITH:

- DLFSHC High Wall (p 20)
- DLFSOAH One-Way Cassette (p 22)
- DLFSCA Cassette (p 24)
- DLFSCB Cassette (p 26)
- DLFSDA Ducted (p 28)
- DLFSDAH High Static Slim Ducted (p 30)
- DLFSAB Air Handler (p 32)
- DLFSFB Floor Console (p 34)
- DLFSFA Console (p 34)

Heat Pump with Basepan Heater

Inverter Compressor

Up to 28.1 SEER2

Up to 13.6 HSPF2

Sizes: 06 / 09 / 12 / 18 / 24 / 30 / 36 (208-230V);
Size 12 (115V)

Select systems are ENERGY STAR® certified based on indoor unit pairing

KEY FEATURES

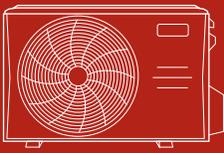

Extra Low Temperature Heating

Heat output up to 69% of rated capacity at -22° F (-30° C). So, when it's cold outside, it will be warm inside, making this a primary heat source and eliminating the need for a backup.

Rapid Cooling & Heating

After startup, the compressor quickly gets up to maximum speed, cooling or heating the room in minutes.

* For certain models.

Not available/compatible or phased out

• Compatible

† Compatible with phased out outdoor unit models starting with serial number: 5122V10319, see TIC 2022-0021 for additional information

FEATURES

- Available in 208/230V (6-36K) or 115V (12K)
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo Mode
- Fully modulating fan speeds
- Sleep Mode
- Up-Down / Left-Right louver control (Fixed or swing)
- Relative Humidity Sensor with percentage and temperature control
- Intelligent Eye (Occupancy sensor)
- ECO Mode
- Heating Setback (46° F heating mode)
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCSRB Outdoor Unit Single Zone (p 16)
- DLCMRB & DLCMHB Outdoor Unit Multi-Zone (p 46)

HIGH WALL

Sizes: 06 / 09 / 12 / 18 / 24 / 30 / 36 (208-230V); Size 12 (115V)

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Time-saving Design

The unit disassembles quickly with a removable filter on top for simplified maintenance. The motor and blower can be serviced without removing the cabinet.

Improved Efficiency & Performance

ECO mode with intelligent eight-hour night cycle program saves up to 60% of energy for improved overnight comfort, efficiency and performance.

Customizable Comfort

Compatible with both single and multi-zone outdoor units for maximum flexibility.

CONTROLS

Wireless Remote Controller included with indoor unit
 Optional Wired Remote Controller KSACN0801AAA (7-Day Programmable)

Wireless Remote Controller

Optional Wired Controller KSACN0801AAA (7-Day Programmable)

ACCESSORIES

Wi-Fi® kit KSAIF0601AAA
 24V interface for third-party thermostat compatibility KSAIC0401230

ONE-WAY CASSETTE

FEATURES

- Designed to be mounted between 16" joists
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo Mode
- Four fan speeds
- Sleep Mode
- ECO Mode
- Quiet indoor operation
- Aluminum Golden Hydrophilic pre-coated fins

COMPATIBLE WITH:

- DLCSRB Outdoor Unit Single Zone (p 16)
- DLCMRB & DLCMHB Outdoor Unit Multi-Zone (p 46)

Sizes: 06 / 09 OR 12 / 18

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Flexible Installation

The one-way cassette is designed to be mounted between 16in. joists for a range of installation applications, including corners.

High Efficiency

Achieve up to 24.0 SEER2 and 12.4 HSPF2 with an indoor unit that's inherently energy efficient, no matter the mode.

Dual Capacity

Experience this capability through a dip switch setting on each one-way cassette indoor unit of the 6K / 9K and 12K / 18K sizes.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller KSACN0101AAA (Timer Function)

Optional Wired Remote Controller KSACN0701AAA (7-Day Programmable)

Wireless Remote Controller

FEATURES

- Available in 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Auto-restart function
- Louver control (fixed or swing)
- Three fan speeds
- Outside air intake
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46° F Heating Mode)
- Quiet indoor operation, as low as 27 dB(A)
- Anti-corrosive fin coating
- Grille/ceiling panel 2' x 2' sizes 09 to 18 KSALG0101AAA
- Grille/ceiling panel 3' x 3' size 24 KSALG0201AAA

COMPATIBLE WITH:

- DLCSRB Outdoor Unit Single Zone (p 16)
- DLCMRB & DLCMHB Outdoor Unit Multi-Zone (p 46)

CASSETTE

Sizes: 09 / 12 / 18

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Built-In Condensate Lift Pump

The cassette is supplied with a condensate lift pump that is capable of lifting the water 29.5 in. (750 mm.) above the top of the unit.

Integrated Electrical Components

Easy maintenance with the circuit box inside the unit, provides a more compact size for easier installation.

CONTROLS

CASSETTE

Sizes: 24

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Easier Service & Installation

The cassette is supplied with a condensate lift pump that is capable of lifting the water 29.5 in. (750 mm.) above the top of the unit.

Seamless Connection

Optimized Wi-Fi® connectivity means fewer installation steps for faster, more seamless connections.

Enhanced Design

A new, ergonomic design and larger vents for improved airflow means greater comfort from an unobtrusive indoor unit.

CONTROLS

Wireless Remote Controller included with indoor unit

DUCTED

Sizes: 09 / 12 / 18 / 24

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Vertical or Horizontal Installation

Designed for maximum installation flexibility with the built-in secondary drain pan, which allows the unit to be mounted vertically for either a floor- or ceiling-concealed installation depending on existing conditions.

Built-In Condensate Lift Pump

Supplied with a condensate lift pump that is capable of lifting the water a maximum of 29.5 in. (750 mm.) above the top of the unit.

HIGH STATIC SLIM DUCTED

FEATURES

- Vertical or horizontal installation
- External static pressures of up to 0.80 in W.C.
- Constant air volume control
- Modes: Cool, Heat, Dry, Fan, Auto
- Rear or bottom return
- Outside air intake
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Quiet indoor operation, as low as 35 dB(A)

COMPATIBLE WITH:

- DLCSRB Outdoor Unit Single Zone (p 16)
- DLCMRB & DLCMHB Outdoor Unit Multi-Zone (p 46)

Sizes: 09 / 12 / 18 / 24

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Discrete Design

A slim duct design, recessed installation and exterior connection via flexible refrigerant tubing allow this unit to integrate seamlessly into existing architecture and new construction.

Improved Indoor Air Quality

Each unit comes equipped with a washable, reusable filter for simple, cost-effective servicing. And with the ability to accommodate filters rated up to MERV 13, customers can benefit from the gold standard in indoor air quality technology without sacrificing performance or efficiency.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller KSACN0101AAA (Timer Function)

Optional Wired Remote Controller KSACN0701AAA (7-Day Programmable)

Wireless Remote Controller

Optional Wired Controller KSACN0101AAA (Timer Function)

Optional Wired Controller KSACN0701AAA (7-Day Programmable)

ACCESSORIES

Wi-Fi® kit KSAIF0401AAA

24V interface kit 230V KSAIC0301230

For Sizes 36, 48 and 58, refer to the Light Commercial Section
 Backward compatible with DLCSRB Single Zone and DLCMRB & DLCMHB Multi-Zone Systems

FEATURES

- Modes: Cool, Heat, Dry, Fan, Auto
- 4-way installation (Upflow, Downflow, Right, Left)
- New aluminum coil
- Automatic Airflow Technology with static pressure up to 0.8 in W.C.
- Less than 2% air leakage
- Easy maintenance
- Quiet indoor operation
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCSRB Outdoor Unit Single Zone (p 16)
- DLCMRB & DLCMHB Outdoor Unit Multi-Zone (p 46)

AIR HANDLER

Sizes: 18 / 24 / 30 / 36

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Unmatched Maintenance Simplicity

With a top panel and an indoor coil that can be easily removed, get faster access to the core parts of the unit needed for service. You only need to remove two screws!

Less Complex Electronics

Having only two integrated printed circuit boards means the electronic components are less complicated. One is the main control board, and the other is the function board for the 24V interface, dip switch, wired controller and LED display.

Easier Access to Electric Heater

This single-piece construction enables easy installation and maintenance.

Modular Slide Design

The indoor coil can be easily pulled out through the slide track for quick and easy maintenance.

CONTROLS

Wireless Remote Controller included with indoor unit
24V interface for third-party thermostat compatibility built-in

WARRANTY

Limited Warranty*
10-year limited to original purchaser on compressor and parts upon timely registration, otherwise 5 years.

*For residential applications. See warranty for full details.

Floor Console Size 12
DLFSFB

Console Sizes 18 & 24
DLFSFA

FEATURES

- Available in 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Auto-restart function
- Size 12 capable of being mounted on floor only
- Sizes 18-24 capable of being mounted on floor or ceiling
- Louver control (fixed or swing)
- Three fan speeds
- Air discharge from top and bottom (size 12 only)
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46° F Heating Mode)
- Quiet indoor operation, as low as 34 dB(A)
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCSRB Outdoor Unit Single Zone (p 16)
- DLCMRB & DLCMHB Outdoor Unit Multi-Zone (p 46)

CONSOLE

Sizes: 12 / 18 / 24

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

2-Way Optional Air Outlet

For up and down air-outlet or up air-outlet. Only on size 12.

Outside Air Intake

Outside air can be brought into the room through the connection available on the indoor unit, which helps meet the ventilation requirement. Only on sizes 18-24.

CONTROLS

FEATURES

- Cost competitive
- Factory installed basepan heater
- Factory installed crankcase heater
- Auto-restart function
- Condenser high-temperature protection
- Refrigerant leakage detection
- Quiet outdoor operation
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLFEHBA High Wall Cooling Only (p 40)
- DLFEHBH High Wall Heat Pump (p 40)

COOLING ONLY & HEAT PUMP

Cooling Only - DLCERCA

Sizes: 09 / 12 / 18 / 24 / 30 / 36

Heat Pump with Basepan Heater - DLCERBH

Sizes: 09 / 12 / 18 / 24

Up to 21.7 SEER2

Up to 9.4 HSPF2

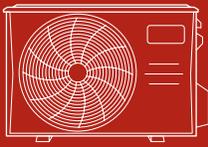

KEY FEATURES

Easy Maintenance

Simple and fast installation and maintenance means less system downtime and costs.

Small Physical Size

With an optimized cabinet design and small footprint, the unit is unobtrusive and quiet.

FEATURES

- Available in 115V and 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo mode
- Up-Down / Right-Left louver control (fixed or swing)
- Four fan speeds
- ECO Mode
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCERCA & DLCERBH Outdoor Unit Single Zone (p 36)
- DLICMRB & DLICMHB Outdoor Unit Multi-Zone (p 46)

HIGH WALL

Cooling Only - DLFEHBA

Sizes: 09 / 12 / 18 / 24

Heat Pump - DLFEHBH

Sizes: 09 / 12 / 18 / 24 / 30 / 36

KEY FEATURES

Improved Serviceability

Full access to the terminal connections and fan after lifting the front cover of the high wall for easy installation and service.

Eco Mode

An intelligent eight-hour night cycle program provides huge energy savings—up to 60%—while maintaining a comfortable sleeping environment.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller KSACN0101AAA (Timer Function)

Optional Wired Remote Controller KSACN0601AAA (7-Day Programmable)

Wireless Remote Controller

Optional Wired Controller KSACN0101AAA (Timer Function)

Optional Wired Controller KSACN0601AAA (7-Day Programmable)

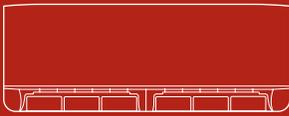

ACCESSORIES

Wi-Fi® High Wall Entry Tier 9/12/24 KSAIF0101AAA

Wi-Fi® High Wall Entry Tier 18k Only KSAIF0201AAA

24V interface for third-party thermostat compatibility KSAIC0401230

MULTI-ZONE RESIDENTIAL

Multi-Zone Ductless

DLCMRB & DLCMHB Outdoor Unit

Up to 23.1 SEER2

Up to 10.2 HSPF2

Sizes: 18 / 24HH / 30HH /

36 / 36HH / 48 / 48HH

HIGH PERFORMANCE OUTDOOR UNIT FOR CUSTOMIZABLE INDOOR COMFORT

FEATURES

- Cost competitive
- Built-in basepan heater
- Auto-restart function
- Quiet outdoor operation, as low as 59 dB(A)
- Anti-corrosive fin coating
- Total zones range from 2 to 5 indoor heads
- Piping length 131–328 ft. (40–100 m)
- Cooling operating range: -22° – 122° F (-30° – 50° C)
- Heating operating range: -22° – 75° F (-30° – 24° C)

COMPATIBLE WITH:

- DLFPHB High Wall (p 14)
- DLFSHC High Wall (p 20)
- DLFSOAH One-Way Cassette (p 22)
- DLFSCA Cassette (p 24)
- DLFSCB Cassette (p 26)
- DLFSDA Ducted (p 28)
- DLFSDAH High Static Slim Ducted (p 30)
- DLFSAB Air Handler (p 32)
- DLFSFB Floor Console (p 34)
- DLFSFA Console (p 34)
- DLFEHBA & DLFEHBH High Wall (p 40)

Heat Pump with Basepan Heater

Inverter Compressor

Sizes: 18 / 24HH / 30HH / 36 / 36HH / 48 / 48HH

Up to 23.1 SEER2

Up to 10.2 HSPF2

Select sizes are ENERGY STAR® certified based on indoor pairings

KEY FEATURES

Multi-Zone Compatibility

Mix and match up to five indoor units to this outdoor unit to bring customizable comfort to multiple rooms or your whole home.

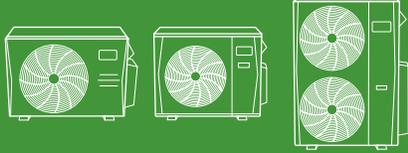

Improved Performance

With new high-heat models, plus standard heat models, experience high performance in cold climates and temps.

Quiet Operation

A sleek, unobtrusive outdoor unit that's ultra-quiet means less noise pollution and more peaceful outdoor spaces.

Note: Multi-Zone units cannot heat and cool simultaneously.

Manufacturer reserves the right to discontinue, or change at any time, specifications or designs without notice or incurring obligations.

FEATURES

- Available in 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Auto-restart function
- Louver control (fixed or swing)
- Three fan speeds
- Outside air intake
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46° F Heating Mode)
- Quiet indoor operation, as low as 49 dB(A)
- Anti-corrosive fin coating
- Grille/ceiling panel 3' x 3' KSALG0201AAA

COMPATIBLE WITH:

- DLCLRC Outdoor Unit (p 52)

CASSETTE

Sizes: 36 / 48

Select systems are ENERGY STAR® certified based on outdoor unit pairings

KEY FEATURES

Easier Service & Installation

A relocated condensate pump allows for easy replacement and increased spacing between lines.

360° Air Flow Panel

With the 360° air flow panel, air is distributed to every corner of the room.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller KSACN0701AAA (7-Day Programmable)

Wireless Remote Controller

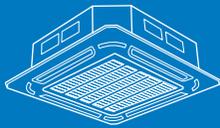

Optional Wired Controller KSACN0701AAA (7-Day Programmable)

ACCESSORIES

Wi-Fi® kit KSAIF0401AAA

24V interface for third-party thermostat compatibility KSAIC0401230

36K & 48K

58K

FEATURES

- Available in 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Vertical (sizes 36 & 48) or horizontal installation
- Up to 0.8 in W.C.
- Rear or bottom return (sizes 36 & 48)
- Constant CFM operation on sizes 36 & 48 only
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46° F Heating Mode)
- Quiet indoor operation, as low as 38.5 dB(A)
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCLRC Outdoor Unit (p 52)

DUCTED

Sizes: 36 / 48 / 58

KEY FEATURES

Vertical or Horizontal Installation

Designed for maximum installation flexibility with the built-in secondary drain pan, which allows the unit to be mounted vertically for either a floor- or ceiling-concealed installation depending on existing conditions for sizes 36 and 48 only.

Built-In Condensate Lift Pump

Supplied with a condensate lift pump that is capable of lifting the water 29.5 in. (750 mm.) above the top of the unit.

- DLCLRC Outdoor Unit (p 52)

HIGH STATIC SLIM DUCTED

Sizes: 36 / 48 / 58

KEY FEATURES

Discrete Design

A slim duct design, recessed installation and exterior connection via flexible refrigerant tubing allow this unit to integrate seamlessly into existing architecture and new construction.

Improved Indoor Air Quality

Each unit comes equipped with a washable, reusable filter for simple, cost-effective servicing. And with the ability to accommodate filters rated up to MERV 13, customers can benefit from the gold standard in indoor air quality technology without sacrificing performance or efficiency.

FEATURES

- Modes: Cool, Heat, Dry, Fan, Auto
- 4-way installation (Upflow, Downflow, Right, Left)
- New aluminum coil
- Automatic Airflow Technology with static pressure up to 0.8 in W.C.
- Less than 2% air leakage
- Easy maintenance
- Quiet indoor operation
- Anti-corrosive fin coating

COMPATIBLE WITH:

- DLCLRC Outdoor Unit (p 52)

AIR HANDLER

Sizes: 36 / 48 / 60

KEY FEATURES

Unmatched Maintenance Simplicity

With a top panel and an indoor coil that can be easily removed, get faster access to the core parts of the unit needed for service. You only need to remove two screws!

Less Complex Electronics

Having only two integrated printed circuit boards means the electronic components are less complicated. One is the main control board, and the other is the function board for the 24V interface, dip switch, wired controller and LED display.

Easier Access to Electric Heater

This single-piece construction enables easy installation and maintenance.

Modular Slide Design

The indoor coil can be easily pulled out through the slide track for quick and easy maintenance.

CONTROLS

Wireless Remote Controller included with indoor unit
 24V interface for third-party thermostat compatibility built-in

WARRANTY

Limited Warranty*
 10-year limited to original purchaser on compressor and parts upon timely registration, otherwise 5 years.

*For residential applications. See warranty for full details.

24V INTERFACE KIT

24V INTERFACE FOR THIRD-PARTY THERMOSTAT

FEATURES

- Control the ductless system using a third-party thermostat¹
- One 24V interface kit per indoor head²
- Keeps the inverter compressor operating as a variable-speed system³
- Rated for outdoor and indoor mounting
- Dry mode contact for active dehumidification control
- Remote on/off contact
- Auxiliary heat control through the thermostat⁴
- Diagnostic code display LEDs
- Power supplied through the outdoor unit

COMPATIBLE WITH:

- DLFPHB High Wall
- DLFSHC High Wall
- DLFSOAH One-Way Cassette
- DLFSCA Cassette
- DLFSCB Cassette
- DLFEHBA & DLFEHBH High Wall
- DLFSDA Ducted
- DLFSDAH High Static Slim Ducted
- DLFSFA Console

Included in:

- DLFSAB Air Handler

KSAIC0401230

The Second Generation 24V interface kit allows both single **and** multi-zone ductless systems to be compatible with and controlled by any third-party, single-stage conventional thermostat.¹ The 24V interface kit maintains the benefits of variable-speed technology, enabling increased efficiency and comfort for end users.³

KEY BENEFITS

Maintain Inverter Compressor Technology

The new 24V interface keeps the inverter compressor operating as a variable-speed system when using a third-party thermostat, making adjustments to maintain more consistent operation.

Easy & Flexible Installation

Experience quick and easy installation between either a single or multi-zone outdoor unit and the fan coil. The interface can be installed either indoors or outdoors.

Consumer Choice & Control

Consumers can choose to use either the included Remote Controller or their preferred third-party thermostat to control each ductless unit.

ACCESSORIES

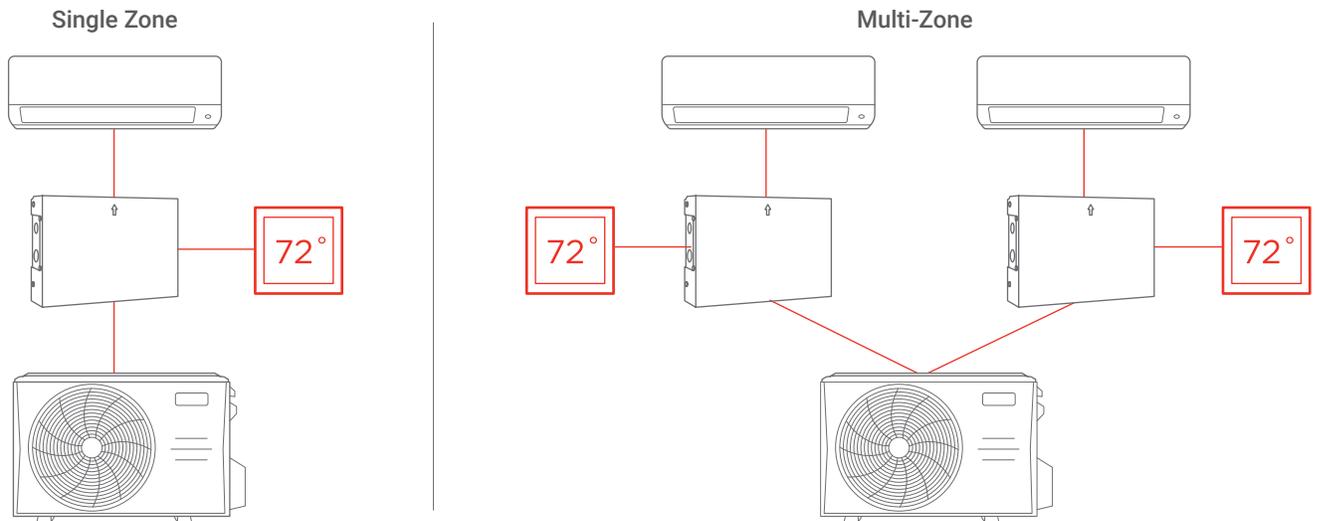

115V Transformer RCD#11203103000393
(Used only on ductless systems with 115V power.)

COMPATIBILITY:

| Compatibility Table | | | | |
|---------------------|--------------------|---------------------------------|--------------------------------|---------------------------------------------|
| Type of Indoor Unit | Indoor Family Name | Single Zone Outdoor Family Name | Multi-Zone Outdoor Family Name | 208/230V |
| High Wall | DLFPHB | DLCPRB | DLCMRB & DLCMHB | All Sizes |
| | DLFSHC | DLCSR | DLCMRB & DLCMHB | All Sizes |
| | DLFEHBA | DLCEB | DLCMRB & DLCMHB | All Sizes |
| Cassette | DLFSAH | DLCSR | DLCMRB & DLCMHB | All Sizes |
| | DLFSA | DLCSR | DLCMRB & DLCMHB | All Sizes |
| | DLFSA | DLCSR | DLCMRB & DLCMHB | All Sizes |
| Ducted | DLFSA | DLCSR | DLCMRB & DLCMHB | All Sizes Except Size 58 (See Note) |
| | DLFSAH | DLCSR | DLCMRB & DLCMHB | All Sizes Except Size 58 (See Note) |
| Console | DLFSA | DLCSR | DLCMRB & DLCMHB | All Sizes Except Sizes 12 and 58 (See Note) |

Note: The indoor unit requires an updated control board for compatibility with the 24V interface kit. High wall units starting with Serial #4316V10001 are shipped with the compatible control board. Ducted units starting with Serial #4616V10001 are shipped with the compatible control board. For other model numbers not shown on the table above, please contact your ductless representative. Ducted size 58 Console sizes 12 and 58 starting with serial #1419V1001 are shipped with compatible control board.

- Notes:
- (*1) Third-party thermostats used with the 24V interface kit will replace the wireless remote controller included with the unit. Consult with dealer for more information.
 - (*2) When using in a multi-zone system not all the indoor heads require a 24V interface kit.
 - (*3) A conventional 5-wire thermostat is required.
 - (*4) A secondary output is necessary for auxiliary heat control.

GET CLIMATE CONTROL AT YOUR FINGERTIPS WITH WI-FI® CONNECTIVITY

FEATURES

- Multiple modes, including Turbo, Cool, Heat, Dry, Fan, Auto and ECO (on compatible indoor units)
- Multiple fan speeds
- Sleep curve
- Up-Down / Right-Left Louver control (fixed or swing) on compatible indoor units
- Heating setback (46° F heating mode)
- Timer function for on/off scheduling

Heil ductless indoor units are Wi-Fi® enabled through our Wi-Fi® Accessory Kits. Easily connect to network apps from your hand-held device for system control on the go.

APPS

The Midea Air app is compatible with all kits and available in the App Store® for iOS devices and Google Play™ for Android devices.

COMPATIBILITY:

The Wi-Fi® Accessory Kits are backwards compatible with indoor units of the same series. No serial number cutout.

| Wi-Fi® Accessories Model# | Description | DLFPHB | DLFSHC | DLFSCA DLFSCB | DLFSDA DLFSDAH | DLFSFB DLFSFA | DLFEHB |
|---------------------------|------------------------------------------|--------|--------|------------------|-------------------|------------------|--------|
| KSAIF0101AAA | Wi-Fi® High Wall Entry Tier 9 / 12 / 24k | | | | | | • |
| KSAIF0201AAA | Wi-Fi® High Wall Entry Tier - 18k ONLY | | | | | | • |
| KSAIF0401AAA | Wi-Fi® Cassettes, Ducted, Console* | | | • | • | • | |
| KSAIF0501AAA | Wi-Fi® High Wall Mid-Tier | | • | | | | |
| KSAIF0601AAA | Wi-Fi® High Wall High Tier | • | | | | | |

*Not available for Console size 12

COMPONENTS:

All the components required for retrofit and operation are included with the Kits:

| Kit Part Number | Indoor Unit Type | Components Included with Kit | | | |
|-----------------|---------------------------------------------------------------------------|------------------------------|-------------------------------------------------------|------------------------|-------------|
| | | Wi-Fi® USB Dongle | Wi-Fi® Translator PCB | USB Intermediate Cable | Display Box |
| KSAIF0101AAA | High Wall Entry Tier 9 / 12 / 24k | • | | • | • |
| KSAIF0201AAA | High Wall Entry Tier 18k | • | | • | • |
| KSAIF0401AAA | Cassette (all sizes) Ducted (all sizes) Console (only sizes 18-58)* | • | • Includes 19ft (6m) cable and Wireless Control | | |
| KSAIF0501AAA | High Wall Mid-Tier (all sizes) | • | | • | • |
| KSAIF0601AAA | High Wall High Tier (all sizes) | • | | | |

The individual components included with the kits are also available through RCD for replacement.

*Not available for Console size 09 or 12.

COMPATIBILITY:

The use of the Wi-Fi® Accessory Kits on some indoor units would disable the ability to use the Wired Controllers in some instances:

| | Wired Control | Wireless Control |
|----------------------|---------------|------------------|
| High Tier High Wall | • | • |
| Mid-Tier High Wall | | • |
| Entry Tier High Wall | | • |
| Ducted | • | • |
| Cassette | • | • |
| Console 18-58 | • | • |

Note: The use of the 24V interface will disable system's Wi-Fi® module.

Please consider using a Wi-Fi® Thermostat when using the 24V interface.

Wi-Fi® kits cannot be used on networks requiring a user login.

Wi-Fi® kits are only supported with networks using WPA-PSK/WPA2-PSK encryption and no encryption. WPA-PSK/WPA2-PSK encryption is recommended.

Please consult the installation instructions and Owners Manuals of the individual kits for more information.

At Heil, we know that you work hard to uphold your reputation as a trusted dealer and expert in your market. And that you must consistently offer innovative, efficient, high-performing products and services to keep customers happy and stay competitive.

Essentially, we know what you need to be successful and we aim to create the best experience possible for you. That's why we provide all our dealers with top-notch factory support and team up with distributors to provide the tools needed for success, including:

Training on ductless systems

Dealer loyalty programs and incentives

A dealer locator tool to help drive leads

Educational and sales resources

It's all part of our commitment to helping you succeed and offer the greatest value and support to your customers.

TIERS

| Product Tier | Series Name |
|--------------|----------------------|
| High Tier | Deluxe Series |
| Mid-Tier | QuietComfort® Series |
| Entry Tier | Performance Series |

WARRANTY DETAILS

| Product Family | Warranty Period in Years | |
|----------------|--------------------------|------------------|
| | Original Owner | Subsequent Owner |
| DLF, DLC | 5 or 10* | 5 |

*If properly registered within ninety (90) days after original installation, otherwise five (5) years (except in California and Quebec and other jurisdictions that prohibit warranty benefits conditioned on registration). See Warranty conditions below.

OTHER APPLICATIONS

For all other applications other than residential applications, the limited warranty period is seven (7) years on the compressor and seven (7) years on all other parts. The warranty is to the original owner only and is not transferable for subsequent owners.

Standard Features Glossary

24-Hour Timer

Set the unit to start and stop automatically in a 24-hour period.

Airflow Panel

360° air outlet creates a soft and gentle airflow, which circulates throughout the whole space and provides an even temperature distribution in the room.

Auto Defrosting

Prevents the evaporator from freezing and maintains dehumidifying effect in low temperature environments.

Auto Restart Function

If the air conditioner shuts off unexpectedly due to a power outage, it will restart with the previous settings automatically when the power resumes.

Built-In Basepan Heater

A heating belt is fitted on the base plate of the outdoor unit to prevent water accumulation, which improves heat transfer efficiency.

Built-In Condensate Lift Pump

A powerful, built-in drain pump can lift the condensing water up to 29 inches.

Control Box Inside the Cassette

Easy maintenance with the box right inside the cassette indoor unit. The integrated design provides a more compact size for easier installation.

Convenient Temperature Controls

An intuitive, easy-to-use remote control displays temperature and other functions on a bright, clear LCD screen.

Convertible Return Air Inlet

The air inlet can be installed either at the back or bottom of the ducted unit, allowing for flexible installation to meet the needs of each job.

Crankcase Heater

A heating belt is fitted on the compressor to prevent frosting water accumulation, which improves heat transfer efficiency.

Diamond Outdoor Unit Design

An innovative outdoor unit reduces noise level by more than 3 dB(A), with higher reliability, easier maintenance and improved performance.

Eco Mode

Provides the ultimate energy savings and a comfortable sleeping environment with an intelligent eight-hour night cycle program that saves up to 60% of energy.

Extra-Low Temperature Heating

When it's cold outside, it's warm inside. High Tier ductless systems can be used as a primary heat source, with heat output down to -22° F.

Follow Me

A temperature sensor built into the remote controller will sense its surrounding temperature. The unit will adjust the room temperature more accurately to give you comfort.

High Ambient Cooling

The indoor space can be cooled to a desired, comfortable indoor temperature, even when outside temperatures reach up to 122° F.

High Heating Operation

The high tier and mid-tier systems can be a primary heat source, with high heating down to -22° F, so when it's cold outside, it's warm inside.

Independent Vane Control

Airflow direction from individual outlets can be controlled separately to achieve the optimal airflow based on a room's configuration.

Inverter Technology

With the inverter, the outdoor unit uses only the energy required to meet the desired temperature requirements of the indoor unit, thus lowering energy consumption.

Louver Position Memory

A horizontal louver will automatically move to the same position that was set the last time the unit was on.

Low Ambient Cooling

Even when it's cold outside, but warm inside, the air conditioner will keep the area cool—perfect for server rooms and commercial kitchens.

Refrigerant Leak Detection

The indoor unit shows error code "EC" and stops automatically when refrigerant leakage is detected. This protects the compressor from high temperature damage due to refrigerant leakage.

Single and Multi-Zone Compatible

A single zone outdoor unit can be paired with any indoor unit type. One multi-zone unit can be leveraged for up to five indoor units of any style.

Sleep Mode

This function enables the system to automatically increase cooling or decrease heating by around four degrees for the first two hours, then holds steady for the next five hours. After that, it will switch off. This function achieves both energy savings and comfort at night.

Stepless Frequency Adjustment

Precise control maintains a stable and constant room temperature while reducing the sound level and saving energy.

Two-Way Draining

Connections, piping and drainage can be installed from both the left and right on the high wall.

Universal Matching

Get maximum flexibility with up to five different indoor units connected to one outdoor unit. Maintain a different temperature in each room for ultimate comfort, with the best indoor unit choice for each. Universal matching units are also available for single zone outdoor units. One outdoor unit can match any type of indoor unit.

Wired Remote Controller

Compared to an infrared remote controller, a wired controller can be fixed on the wall and makes air conditioner operation more convenient for larger setups or ducted units.
