SLIM-DESIGN
HEAT PUMPS

Slim Design. Reliable Build.

Lennox slim-design heat pumps allow for installation in even the tightest areas, making them perfect for space-constrained environments such as zero lot line homes.

No Worries. It's a LENNOX

Comfort

Variable capacity, constant efficiency

These products offer variable-capacity operation, meaning they can adjust heating and cooling output like a dimmer switch to perfectly match your energy use to your comfort needs. This also helps control humidity more accurately.

Sound Levels

Quiet comfort

The side-discharge design reduces sound levels, making these units a great option for homes with noise restrictions.

Efficiency

Use less energy. Save more money.

Designed with efficiency in mind, Lennox slim-design heat pumps can help cut your energy bills year-round. They may even help you qualify for energy rebates.

Durability

High quality, tough, and dependable

Built for durability and reliability with a heavy-duty steel cabinet to ensure that your unit resists the elements for years to come.

LENNOX

SLIM-DESIGN HEAT PUMPS

Slim, Space-Saving Design. Greater Install Flexibility. Quiet Operation.

- ✓ Variable-capacity compressor for enhanced performance, comfort, and humidity control
