Seasonal Energy Efficiency Ratio (SEER)

This rating determines an air conditioner's efficiency. The higher the SEER rating, the more energy-efficient it is.

Ultimate Comfort System™ Product

The most advanced HVAC system ever. Combines the best of the Dave Lennox *Signature*® Collection to create an unprecedented whole-home comfort system that seamlessly and intelligently works together to stay finely tuned to your home and deliver consistently clean, perfect air.

ENERGY STAR® Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

Quantum Coil™

Our exclusive coil is made from a proprietary aluminum alloy for improved resistance to corrosion, resulting in improved performance and energy savings.

Precise Comfort Design

This variable-speed technology allows units to automatically adjust airflow in increments as small as 1% to avoid temperature swings and precisely match comfort requirements.

10-Year Limited Warranty on Compressor and Covered Components

Applies to residential applications only. See warranty certificate for more details.

How does single-stage, two-stage & variable-capacity work?

72°

Single-Stage

Unit is either on or off, creating wide temperature swings.

72°

Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

72°

Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
