

## Lennox® packaged units offer these features:

Lennox packaged units are an all-in-one heating and cooling solution that installs outside, with no indoor unit required

Compact footprint that allows for quick installation and seamlessly blends with your outdoor environment

Heavy-duty steel cabinets, steel louvered coil protection, and base rails provide added corrosion protection and rigidity

Internally mounted fan reduces vibrations and keeps operating sounds at a minimum  
These products utilize a more environmentally friendly refrigerant with a significantly lower global warming potential (GWP) than previous refrigerants
