AFUE

WARMTH

Since 1914

SINCE 1914, WE'VE BEEN DELIVERING ON OUR PROMISE TO CREATE SENSIBLE, AFFORDABLE PRODUCTS THAT DO WHAT YOU NEED THEM TO WHEN YOU NEED THEM TO. BECAUSE THE BOTTOM LINE IS YOU JUST NEED A FURNACE - A COST-EFFECTIVE APPLIANCE TO HEAT YOUR HOME. HOMEOWNERS WHO CHOOSE PAYNE ARE DELIGHTED IN THEIR DECISION BECAUSE IT IS SUCH A SENSIBLE CHOICE THAT SAVES THEM MONEY AT THE PURCHASE, AND KEEPS PERFORMING WINTER AFTER WINTER.

Right for you.

OUR PROMISES

The Well-Built Warranty.

Every furnace we build is covered with a 10-year parts limited warranty to the original owner of the properly registered product.* The heat exchanger is covered by a 20-year parts limited warranty.

Run-tested and right for you.

Because we only feel comfortable providing you with long-lasting comfort and efficiency, only products that complete our testing with a 100% success rate make it out of the factory.

WHAT IS AFUE?

Like a car's mpg, AFUE (Annual Fuel Utilization Efficiency) is the measure of fuel efficiency for a furnace. It tells you what percentage of consumed heating fuel actually goes to heating your home. The higher the number the better, because when you waste fuel, you waste money.

Example: For each \$1.00 of heating fuel that the Payne PG8JVB furnace uses, 80% (or \$.80) of it is used to actually heat your home.

For California Residents:

For installation in SCAQMD only: Models PG8JVB, PG8JEB and PG8MAA do not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit, and thus are subject to a mitigation fee of up to \$450.

These furnaces are not eligible for the Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

PEACE OF MIND

When you purchase Payne® products, you will soon find out why they are right for you. Our furnaces aren't just affordable — they're built to perform.

VARIABLE-SPEED

The PG8JVB features a variable-speed motor. This technology saves you money year-round on electric bills while being extremely quiet. Saving money never sounded so good.

- 1 Efficiency that lasts** — Our 80% AFUE furnaces save money on operation compared to older, less-efficient models. And Payne stands behind their reliable performance, season after season. The heat exchanger, for example, is specially designed for lasting corrosion resistance and durability and is backed by a 20-year parts limited warranty.
- 2 Reliability** — The hot surface igniter makes sure you can count on heating when you need it.
- 3 Responsiveness** — We did get a little fancy with our advanced electronic control for reliable activation and continuous monitoring of the system.
- 4 Motor options** — The broader the spectrum of speeds a motor can accommodate, the more efficiently and quietly the furnace heats and circulates the air. We offer furnaces with standard, multi-speed and variable-speed motors.

OUR 80% GAS FURNACES

- VARIABLE-SPEED MOTOR
- Two-stage gas valve
- Multi-poise installation
- Low NOx California model

PG8JVB

80%
AFUE

- Energy efficient, multi-speed motor
- Multi-poise installation
- Low NOx California model

PG8JEB

80%
AFUE

- Standard motor
- Multi-poise installation

PG8MAA

80%
AFUE

PG8JAA — Low NOx California Model

PAINLESS PAYMENTS

Often the need for comfort doesn't always match the immediate ability to pay for it. So Payne makes life a little easier with 6 or 12 months of deferred interest, minimum monthly payment financing. There is a minimum monthly payment of 2.5% of the balance or \$30, but if you pay it off within the promotional period, you pay no interest.

Or, spread your payments over time with a reasonable fixed APR rate finance charge. Either way, you can enjoy comfort now when you need it with a Payne® dealer who offers GE Capital financing.
