WELL-BUILT

since 1914

SINCE 1914, WE'VE BEEN DELIVERING ON OUR PROMISE TO CREATE SENSIBLE, AFFORDABLE PRODUCTS THAT DO WHAT YOU NEED THEM TO WHEN YOU NEED THEM TO. BECAUSE THE BOTTOM LINE IS THAT YOU JUST NEED AN AIR CONDITIONER FOR YOUR HOME - A COST-EFFECTIVE APPLIANCE TO KEEP YOU COOL. HOMEOWNERS WHO CHOOSE PAYNE ARE DELIGHTED IN THEIR DECISION BECAUSE IT IS SUCH A SENSIBLE CHOICE THAT SAVES THEM MONEY AT THE PURCHASE, AND KEEPS PERFORMING SUMMER AFTER SUMMER.

Right for you.

OUR PROMISE

The Well-Built Warranty.

Every packaged air conditioner we build is covered with a 10-year parts limited warranty. This warranty applies to the original owner of the properly registered product. Ask your Payne dealer about optional labor warranties.*

Run-tested and right for you.

Because we only feel comfortable providing you with long-lasting comfort and efficiency, only products that complete our testing with a 100% success rate make it out of the factory.

WHAT IS SEER2?

Like a car's mpg, SEER2 (Seasonal Energy Efficiency Ratio) is the measure of cooling efficiency for an air conditioner. It tells you how much heat is removed from your home in relation to how many watts per hour it takes to reach your set comfort level. The higher the number the better, because when you waste energy you waste money.

To give you an example, the minimum SEER2 level for cooling operation in the U.S. is now 13.4. Payne offers models that exceed that, giving you even better efficiency.

For homes that are designed to use packaged air conditioners, these models have both the interior and exterior components of traditional split-system air conditioners combined in one outdoor unit.

*Warranty period is five years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate at payne.com for complete details, terms and exclusions.

PEACE OF MIND

When you purchase Payne products, you will soon find out why they are right for you. Our packaged air conditioners aren't just affordable – they're built to perform. And since packaged air conditioners operate entirely outdoors, all components are designed for maximum durability.

ENVIRONMENTALLY-SOUND R-410A

These packaged air conditioners use the EPA-approved and chlorine-free R-410A refrigerant, an environmentally-sound alternative to R-22, for minimal effect on the Earth's ozone layer.

1 Lasting protection — Exterior cabinetry is coated with a rugged baked-on enamel finish to provide scratch and corrosion resistance. All models utilize an all-aluminum evaporator coil to provide added corrosion resistance.

2 Reliable R-410A compressor — You want the most important part of the entire unit to stay running strong, right? With built-in protective features, our compressor operates quietly and reliably for years of cooling comfort.

3 Opt for heating — Our optional heat package can be added to the blower cabinet to provide heating for areas that need it.

4 Solid foundation — Our durable, composite base features outstanding drainage to help inhibit mold, algae, and bacterial growth. Outside, metal base rails provide added stability, plus easier handling and rigging for the dealer.

PACKAGED AIR CONDITIONERS
