Why Indoor Air Quality Matters to All of Us!

It is now well known that indoor air environments can affect the **Health** of the people who live in them. As energy costs have risen, air tightness in our homes has increased. This increase has created the phenomena of **“trapped indoor air pollutants”**. Statistics show, we now spend a remarkable 90%* of our lives indoors. We live, work, grow & play in artificial environments. The concern is, are they healthy? *EPA

Patented EM PureClean Collection System

The Respicaire EM PureClean 95 - Hybrid Air Cleaner works on the simple principle of electro-magnetic attraction to **remove harmful**, airborne particulates from your indoor air. This includes particles as small as .001 microns. The Patented Air Cleaner utilizes an internal charging grid to place a **powerful electro-magnetic charge** on the unique media pads inside each air cleaner. These special multi-layered media pads then **attract and hold harmful airborne pollutants**. The removal of these troublesome particulates helps to create a **healthier**, more natural, indoor air environment.

EM PureClean 95 - Hybrid Whole Home Air Cleaner

Helps Remove Unwanted Airborne Contaminants

Patented EM PureClean Collection Technology to Maximize Indoor Air Cleansing

Replacement Pack
