Why Indoor Air Quality Matters to All of Us!

It is now well known that indoor air environments can affect the **Health** of the people who live in them. As energy costs have risen, air tightness in our homes has increased. This increase has created the phenomena of “**trapped indoor air pollutants**”. Statistics show, we now spend a remarkable **90%*** of our lives indoors. We live, work, grow & play in artificial environments. The concern is, are they healthy? *EPA

What can the Respicaire ElectroStatic ES Filter do for you?

The Respicaire ElectroStatic ES air filter is a **permanent** air filter for your home heating and cooling system. With the Respicaire ES filter you will never need to replace your throw-away furnace filters again.

The Respicaire ES has been engineered to significantly **outperform** home air filters. This is due to our unique electro-static materials that create a mild **static charge** as air passes through them. This causes the material to **attract and hold** airborne contaminants. This electro-static attraction helps to **clean** your indoor air by removing airborne contaminants. Our unique **multi-stage design** provides superior filtering efficiencies and our inner collection chamber ensures long service life. The Respicaire ElectroStatic ES air filter uses no foam materials that are vulnerable to degradations, clogging or the restriction of air flow. The Respicaire ES has high **dust holding capacity** and low static pressure to help keep your heating and cooling systems operating **efficiently**.

The Respicaire ES ElectroStatic Air Filter

Maintenance

The maintenance of the Respicaire ElectroStatic ES air filter is remarkably easy. Simply remove the filter and “back wash” it periodically. It is that easy. For customer service call 1-866-876-8044 or 1-416-615-0214.

The Respicaire ES helps remove unwanted airborne particles!

Unit Size	Model Part Code
16" x 20"	RESPES1620
16" x 25"	RESPES1625
20" x 20"	RESPES2020
20" x 25"	RESPES2025
Custom NM	RESPESSPNM (size)
Custom EX	RESPESSPEX (size)
