

AIR HANDLERS  
RH2T

# LONG-LASTING COMFORT THAT FEELS JUST RIGHT

Depend on the **Ruud EcoNet™ Enabled High-Efficiency Two-Stage RH2T Air Handler** to deliver energy-efficient comfort to your home. The unit is designed to help save you money on utility bills while quietly enhancing indoor air conditions. **RUUD.COM**

RELY ON RUUD.™

## Advanced Comfort

The Ruud High-Efficiency Air Handler adjusts airflow in the home to help control humidity. Airflow can be set for specific needs, so your home feels just the way you want it.

## Reduce Energy Bills

Reducing your monthly energy bills is easier than ever with the Ruud High-Efficiency Air Handler. The unit is designed to exceed minimum efficiency standards, which will help lower your monthly utility bill.

## EcoNet™

This innovative technology allows you to control your comfort from home or away.\*

# We Thought of Everything... And Then Some.

Ruud Air Handlers were developed using our 360°+1 design philosophy, which means every detail of the product is meticulously evaluated from every angle. We consider the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your Ruud Air Handler to bring you and your family years of comfort.

The RH2T Air Handler is designed to operate with the EcoNet Smart Home System. EcoNet technology combines select Ruud Heating, Cooling and Water Heating solutions into one integrated network so you can effortlessly manage home comfort and energy usage from anywhere with the control center, free mobile app or mobile-friendly web portal.

**Humidity Control** A new Ruud Air Handler will help manage humidity levels in the home, improving your comfort and helping you save money on energy bills.

**Efficient Heating & Cooling** Ruud Air Handlers also feature a flexible design that allows them to meet the needs of a variety of systems. Your Contractor will recommend a unit that will best meet your home's airflow needs. The **1** factory-installed indoor aluminum cooling coil is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing ensures a long-lasting, reliable performance.

## THE REWARDS OF RUUD QUALITY & DURABILITY

**Quiet Operation** The Ruud RH2T Air Handler is designed with a **2** sturdy steel cabinet with **3** one inch of foil-faced insulation, offering excellent thermal and sound insulation.

**Adaptable Design** The 4-way convertible design of Ruud Air Handlers allows the unit to fit in with the design of your home. An expansion valve allows the air handler to work in conjunction with either an air conditioner or heat pump.

**Optional Electric Heat** When a heat pump is paired with the unit, Ruud Air Handlers can also provide efficient heating for your home. An optional electric heater can be added to keep you warm all winter long.

**Simple Service** Ruud Air Handlers have been engineered to provide your technician easy access to all internal components, helping any service time stay short and simple.

**Ruud Quality** The RH2T Air Handler features a new lanced fin design for maximum performance and increased efficiency. A new high-grade condensate drain pan keeps the unit operating smoothly, especially when the weather heats up. And the corrosion-resistant aluminum endplates keep your unit looking as good as it runs.
