Performance Series

PACKAGED HEATING & COOLING SYSTEMS

COMBINED COMFORT

Models
PAJ4, PHJ4

COMFORT WITH CONFIDENCE

Choose Tempstar heating and cooling equipment so you can enjoy comfort with confidence. Our products deliver exceptional quality, reliability and energy efficiency, backed by time-tested engineering and leading-edge manufacturing. Every unit we make passes a performance check in all phases of operation before it leaves our facility. We call this 100% run testing, and it's one more example of how Tempstar goes the extra mile for your satisfaction.

WHAT IS A PACKAGED SYSTEM?

Tempstar packaged all-in-one units are designed for the best durability and comfort. Regardless of your need - packaged heat pump or packaged air conditioner - these units stay enclosed outside or on roofs with flush-to-the wall installation making them perfect for areas where space is at a premium. The PAJ4 is our single-stage cooling packaged air conditioner and the PHJ4 is our single-stage cooling and heating packaged heat pump.

WHAT MATTERS IN A PACKAGED SYSTEM?

ENERGY SAVINGS

SEER2 (Seasonal Energy Efficiency Ratio) measures the cooling efficiency of an air conditioner during an average cooling season. HSPF2 (Heating Seasonal Performance Factor) measures the heating efficiency of heat pumps. For each of these ratings, the higher the number, the greater the potential for energy savings. The Tempstar Performance PAJ4 and PHJ4 packaged air conditioner and heat pumps have SEER2 ratings as high as 13.4 SEER2 cooling and 10.6 EER2 rating. The PHJ4 also delivers 6.7 HSPF2 heating.

RUGGED BUILD

The PAJ4 and PHJ4 are built for lasting durability with pre-painted steel cabinets and louvered coil guards to protect the outdoor coil. The evaporator coil is made of quality aluminum to provide improved corrosion resistance. The composite base is rust-proof with an integrated, sloped drain pan design for improved drainage.

VERSATILITY

Our most compact packaged products are a logical choice for zero lot line communities, manufactured housing or anywhere space is limited.

PEACE OF MIND

Rest easy with a 10-year parts limited warranty upon timely registration.*

* The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned on registration. See warranty certificate at tempstar.com for complete details and restrictions
