Andropharma® Penis

Testosterone stimulator

Improvement of mental capacity and less fatigue, thanks to the Tribulus terrestris, a plant and a powerful testosterone stimulator.

Increasing sexual desire

It may help you enhance your sexual desire thanks to the stimulation of glands that secrete testosterone, which increases the production of semen and boosts sexual desire

Obtaining longer-lasting erections

The combination of Ginkgo biloba and Tribulus terrestris increases vascularisation of the penis and the enhanced libido provided by the gain of testosterone.

Penis extender complement

Taking Andropharma Penis when undergoing a treatment with a penis extender (such as Andropenis) will help achieve penis enlargement faster.

Andropharma® Vigor

Boosting Libido

Maca, damiana and zinc promote testosterone production or this hormone's activity and give strength to the entire body. Testosterone is a key element for the men's sexual desire.

Improving erectile quality

For the erection to be successful and satisfactory it is important to have a healthy and strong blood flow in the penis.

Better sexual performance

Asian ginseng will revitalize the entire body and increase the sexual sensitivity. Also it increases the blood pressure has been observed in the penis.

Obtaining longer-lasting erections

It helps you enhance the sexual desire thanks to the stimulation of glands that secrete testosterone. It is a key element for men's sexual development.

The state of the s

Andropharma® Muscle

Build the muscles

It helps increase muscular mass thanks to the stimulation of the glands that produce several hormones.

Reduce the body fat

For people who wish to increase the volume of their muscles and who want to be stronger, it is important to do so in a healthy way.

Get more physical strength

It is a dietary supplement to increase physical power and strength. Taken as a complement of regular physical activity, the Andropharma Muscle treatment provides increased strength.

Increase self-steem

Andropharma Muscle enhances the body's image, increases self-esteem and feeling of being in better shape.

Andropharma® Slim

Accelerating Metabolism and Fat Burning

The components of our slimming herbal pills work by stimulating metabolic processes and elevate consumption of fats by the body.

Eliminating Excessive Fluids

Equisetum arvense has long been known and used as a powerful diuretic. It stimulates fluid excretion and urination.

Decreasing Absorption of Fat

The extracts of Garcinia could prevent the synthesis of fats from carbohydrates and slow down the formation of new fat reserves.

Well-being and Self-confidence

This herbal supplements will help to obtain a slender figure by burning accumulated fat, preventing deposition of new fatty tissue and eliminating contained liquid.

Formula Formula Formula Formula

Andropharma® Hair

Reduce hair loss

Andropharma Hair is a nutritional supplement aimed at reducing hair loss and encouraging hair regeneration.

Obtain strong and resistant hair

Thanks to the properties of the Andropharma Hair's new formula, enriched in L-Cystine, not only will it thicken hair; it will also get stronger, more resistant and with increased shine.
