Not happy with your lot? _ 7-Mar-09 03:04 PM _

A new device can apparently boost the length of a penis by nearly a third (excited?). The Andro-penis which consists of a plastic ring, two extender rods and a silicon band increased 'volunteers' flaccid length of 7cm (2.8in) to 9.5cm (3.7in) in a year. The device also improved erectile function by 36%. Italian researchers told the British Journal of urology International----- So! Don't despair, someone out there does care.---
