

OPERATIONS MANAGER

SouthWestern Energy (SWE) is a best in class choice for infrastructure construction to utilities, private developers, municipalities, telecommunications and industrial customers. SWE specialises in high voltage construction and maintenance and utility service construction. SWE also provides outdoor and traffic lighting services.

SWE's experienced operators are trained and licensed to safely operate our full fleet of heavy construction vehicles including excavators, pole and bucket trucks, and dump trucks. We are COR Certified through the IHSA, meeting established national standards in health and safety, and maintaining the highest standards of workplace safety and customer service.

About the candidate and the role:

The Operations Manager candidate will be a highly motivated, energetic professional with strong leadership skills who can lead, motivate, and engage team members at all levels of the organisation. The candidate will have significant experience and a proven track record of successful business development, project delivery, and yielding profitable business growth.

Attributes include having had previous P&L experience and must be comfortable dealing with senior professionals across multiple disciplines ranging from engineering, procurement, and construction, through to business development, finance, and administration.

The successful candidate must be able to think strategically, lead and motivate the team while building and nurturing new and existing business relationships. The successful candidate must be a strong leader with a significant action-oriented and aggressive approach to achieving key deliverables.

SKILLS AND QUALIFICATIONS:

- ✓ 8+ years' proven leadership experience in engineering or construction, including related business development and operations in the utilities; municipal; and developer sectors.
- ✓ Post-secondary education with a bachelor's degree in engineering, construction or business preferred. A Professional Engineering degree preferred.
- ✓ Experience executing projects from an engineering or construction perspective, either with companies that own the projects or contractors that provide services to owners.
- ✓ Ability to demonstrate several strong current and relevant client relationships within the private developer, industrial and utility sectors.
- ✓ Strong interpersonal and communication skills demonstrated through the ability to appropriately adjust messaging for various levels of stakeholders.
- ✓ Strong financial analysis, quantitative and analytical skills.
- ✓ Strategic thinker and agile problem solver.
- ✓ Excellent organisational skills with the ability to meet tight deadlines.

- ✓ Understanding of engineering and construction contract models, drawings, and commercial terms.
- ✓ Experience managing in a unionised environment.
- ✓ Located in west GTA, or willing to relocate.

SWE offers:

- ✓ A total compensation package that includes:
 - Targeted performance incentive;
 - Comprehensive health, dental, and insured benefits through MEARIE;
 - Mandatory participation in OMERS pension program;
 - Substantial paid vacation and statutory holidays
- ✓ Working in an environment with a strong commitment to safety;
- ✓ Training and development support and opportunities;
- ✓ Potential for a variety of projects of various sizes.
