Mariangel Marcano

Interior Designer

Skill Set

Hi, I'm Mariangel Marcano. I have been an architect and interior designer for 10 years, and the last 5 years I have worked on projects in the US. I have worked on types of projects, i.e.: residential housing, commercial buildings, and mixed-use developments. I have experience, for example, in creating construction documents (CDs), interior design and creating 3D models. I use software such as AutoCAD, Revit, SketchUp, and Adobe Creative Suite to bring my ideas to life and communicate clearly with clients and contractors. I love turning ideas into practical, beautiful spaces that people enjoy.

Education

Monseñor de Talavera University College
