5.9 Declared or Released Freight Rates - When shipping via motor carrier, water carrier, railroad, or surface freight forwarder and rates are based on declared or released valuation, indicate highest value for lowest available rate. (Example - Electrical Instruments, NOI, NMFC 61700 RVMX $1.50 per pound)

5.10 Classified Material - Items which bear a security classification will be prepared and transmitted in accordance with the conditions prescribed in paragraph 17 of the DOD Industrial Security Manual 5220.22M, and the applicable NATO Security Regulation when concerned. When Government assistance is required in selection of a qualified carrier, the Seller shall contact the Buyer's Traffic Department. The following information must be furnished: (1) Level of Security (Secret, Confidential, etc.) (2) number of pieces in shipment and (3) size and weight of each piece.

5.11 Hazardous Materials - Shipments of Hazardous Materials will be made in compliance with the following:

1. Code of Federal Regulations

   (a) Title 14, Part 103 (reference Restricted Articles Tariff 6D*)

   (b) Title 46, Parts 146-149 (reference R. M. Graziano's Water Carrier Tariff 26*)

   (c) Title 49, Parts 100-199 (reference R. M. Graziano's Restricted Articles Tariff 29*)

2. AFM 71-4/NAVSUPPUB 505

3. IATA Restricted Articles Tariff

*or current supplements or reissues thereof.

**The Seller originating shipments will advise the Buyer's Traffic Department of constraints affecting movement and control of restricted/ hazardous articles.**

5.12 Cost Reimbursable Contracts - If the buyer indicates the purchase is applicable to a Government Cost Reimbursable Contract, the following statement is required on the Commercial Bill of Lading:

"Transportation and service hereunder are for the U.S. Dep't of Defense and the actual total transportation, accessorial and valuation charges paid to the carrier' by the consignor or consignee are to be reimbursed by the Government pursuant to Cost Reimbursable Contract No._____."
