The following applies to the provision:

(a) *Submission of offers:* The paragraph is tailored as follows: (6) By responding to this RFQ, the offeror accepts all terms and conditions contained herein.

(b) *Period for Acceptance of Offers*. The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation

(c) *Late submissions, modifications, revisions, and withdrawals of offers.* The paragraph is tailored as follows:
(1) Late Quotes/Responses: In accordance with RFO 52.212-1(c).

(d) *Contract award.* The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

B. RFO 52.212-2— EVALUATION—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES ADDENDUM

1. 502d CONS/PKAB will issue a purchase order to the responsible contractor whose quote will be the most advantageous to the Government. The following shall be used to evaluate quotes: the technically acceptable, lowest priced quote will be determined to represent the best value. Technical acceptability will be determined by an evaluation of the quoted requirements that meet the technical criteria that are contained in this RFQ.

2. **The following process will be followed**: The Government will rank all quotes based on an initial assessment of the offeror's total evaluated price (TEP). If three (3) or fewer quotes are received, the Government will evaluate all quotes for technical acceptability. If more than three (3) quotes are received, the Government will evaluate the three (3) lowest ranked quotes for technical acceptability. However, the Government reserves the right to evaluate additional quotes for technical acceptability if deemed to be in the Government's best interest. If additional quotes are evaluated for technical acceptability, they will be evaluated in terms of price. The award will be given to the vendor responsible whose quote is the lowest evaluated price among technically acceptable quotes.

The technical evaluation team will evaluate the factors identified below. For the quote to be technically acceptable, the technical factor must be rated as acceptable. The failure of an Offeror to meet any or all technical criteria will result in a technically unacceptable rating and be ineligible for an award. The technical factors will receive one of the ratings listed below:

ACCEPTABLE: Quote clearly meets the minimum requirements of the solicitation.
UNACCEPTABLE: Quote does not meet the minimum requirements of solicitation.

The Government will evaluate the quotes for technical acceptability, assigning ratings as described above. The failure of a quote to provide and meet the technical criteria below will result in a technically unacceptable rating and be precluded for the award.

FACTOR 1 - TECHNICAL: Technical Capability, Equipment Assurance, & Schedule

Submission Requirement:

a) Equipment Specs: The offeror shall submit manufacturer technical data sheets verifying they will provide a certified 50-Ton Air-Cooled Smart A/C Unit and a 150 kVA Transformer (208V Delta / 480V, capable of bidirectional/step-up or step-down operation, NEMA 3R outdoor rated) meeting all SOW specifications.

- **The standard is met when:** The submitted technical cut sheets verify that the proposed air conditioning unit provides a minimum 50-Ton cooling capacity and the transformer is rated at 150 kVA with 208V Delta / 480V bidirectional capability in a NEMA 3R outdoor-rated enclosure.

b) December 9, 2026, Milestone Schedule: The offeror shall submit a milestone schedule or narrative demonstrating their plan to deliver, rig, install, and fully commission the equipment to be operational on December 9, 2026.

- **The standard is met when:** The schedule realistically demonstrates that the equipment will be delivered, installed, and fully operational on December 9, 2026 (without arriving prior to that date), and includes a brief narrative acknowledging coordination with the Government POC to minimize cooling downtime during the transition from the outgoing system.

FACTOR 2 - PRICE
The Government will evaluate the quoted price for reasonableness and completeness.

a) **Total Evaluated Price (TEP):** The TEP will be calculated as the sum of all Firm-Fixed-Price (FFP) Contract Line Item Numbers (CLINs) provided in the pricing schedule.
