Question and Answer Document

Solicitation 12444326Q0080 / Coronado Range Fence Materials

1. Wire stays: the SOW quantity tables state 42-in., while the Specifications and Schedule of Items state 36-in. Please confirm the required length. The wire stays need to be 42-in.

2. Bolts: please confirm whether the “Nuts & Bolts” line (½ in. x 1½ in.) is separate from the bolts referenced with the brace angle iron posts or covers them. The Nuts and Bolts are the ones for the braces

3. Unloading: please confirm whether each district can offload palletized material (forklift available), or whether liftgate/hand-unload delivery is required. There is no guarantee a forklift will be available. Contractors may use their own forklift to unload.

4. Delivery addresses: the Schedule of Items and SF 1449 show different addresses for Safford, Sierra Vista and Santa Catalina. Please confirm the correct delivery address for each district.

The Schedule of Items contains the correct delivery locations; however, the SF-1449 reflects the incorrect locations. The Schedule of Items delivery locations govern.
