

# Bobby Basset says...

The 'Bobby Basset says...' range of resources are designed to encourage whole-class and individual participation in word, letter and number association. Here's how it works...

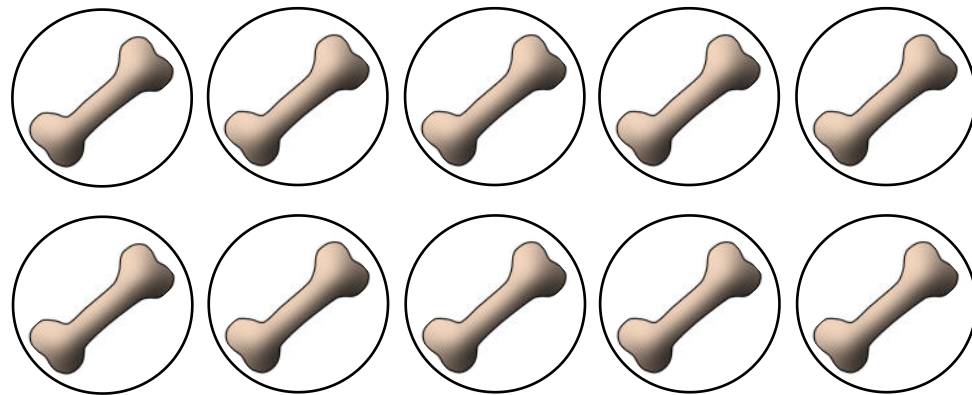

The teacher holds up a sheet to the class and calls out 'Bobby Basset says...' (stating the phrase in the speech bubble). The class then respond by shouting out the corresponding number bond to make 10 bones.

*Many more 'Bobby Basset says...' resources will soon be available...*
