

How to Tie Shoe Laces

1
Take both laces and cross them over to make an X with the left lace in front.

2
Pull the left-hand lace through the bottom of the X.

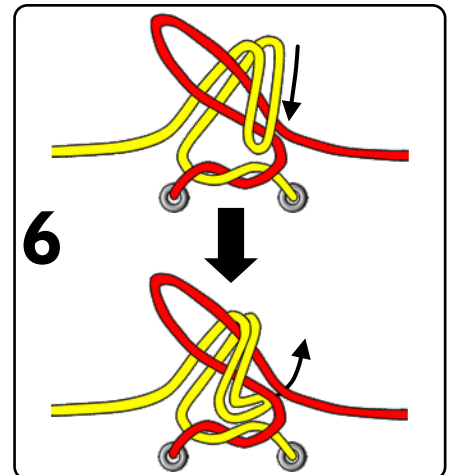

3
Tighten the laces.

4
Loop the laces into rabbit ears.

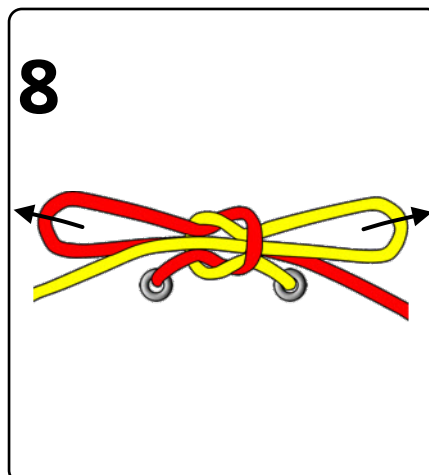

5
Cross the rabbit ears over each other so that the right ear is in front of the left.

6
Pull the left ear over the right and push through the 'hole' beneath where they cross.

7
Pull the ear right through to the other side.

8
Tighten the rabbit ears into a bow.
