

Where does milk come from?

1

Cows graze in the fields.
They have four stomachs that
help them turn the grass into milk.

Where does milk come from?

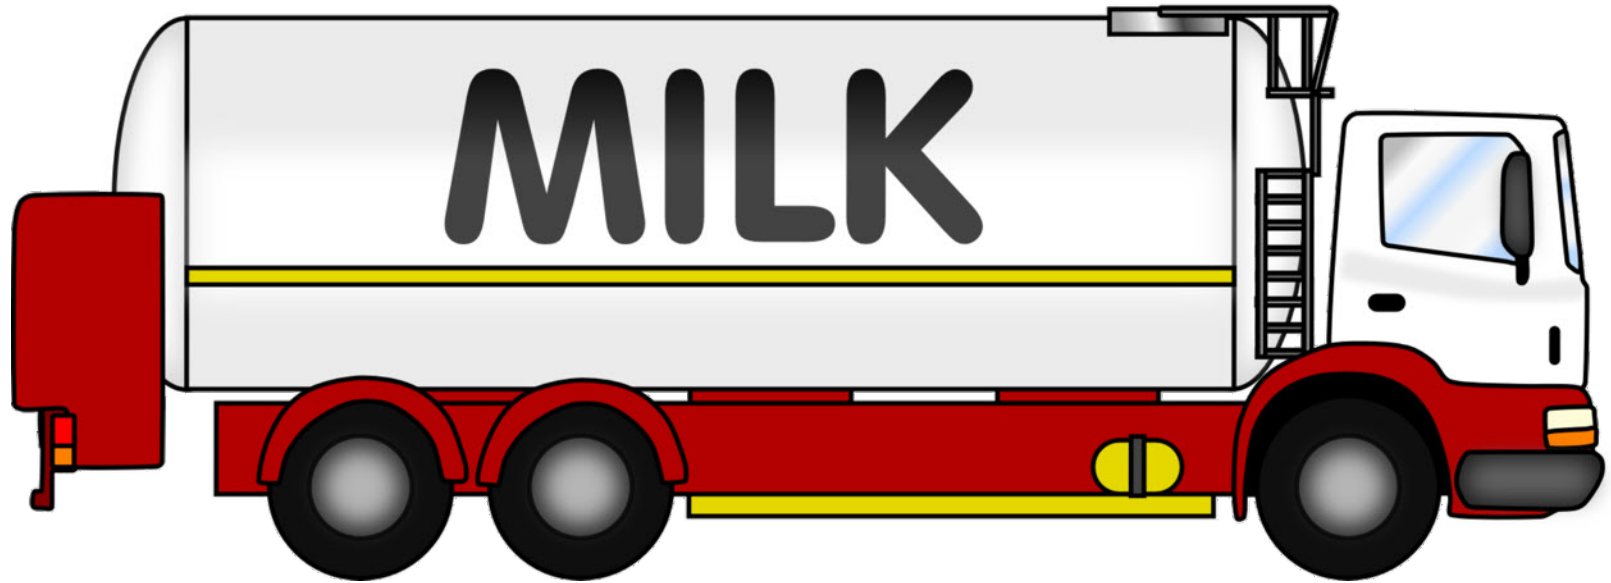

2

The cows' udders store the milk.
The farmer milks the cows every day.

Where does milk come from?

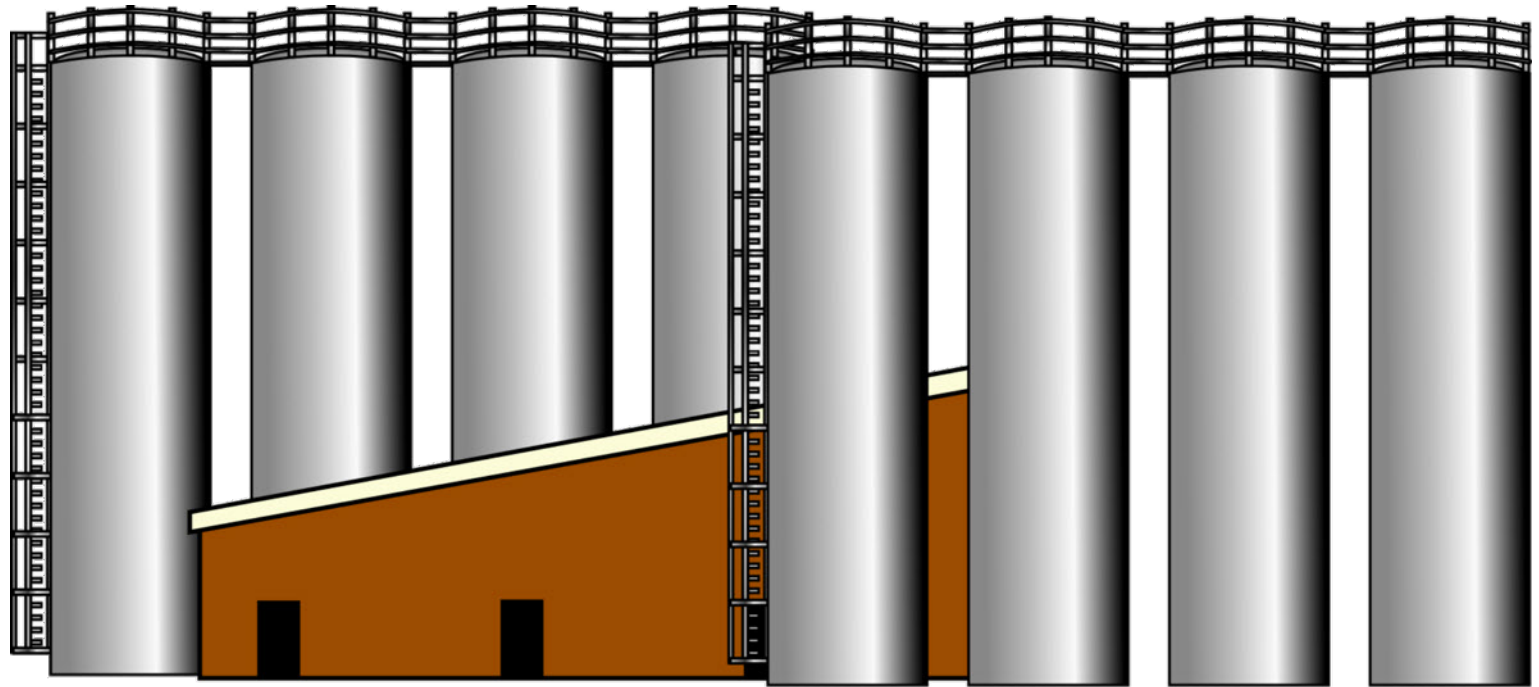

3

A tanker comes to collect the milk
and take it to a dairy factory.

Where does milk come from?

4

At the factory the milk is processed
and bottled ready to drink.

Where does milk come from?

5

The milk is transported in lorries
to supermarkets and shops.

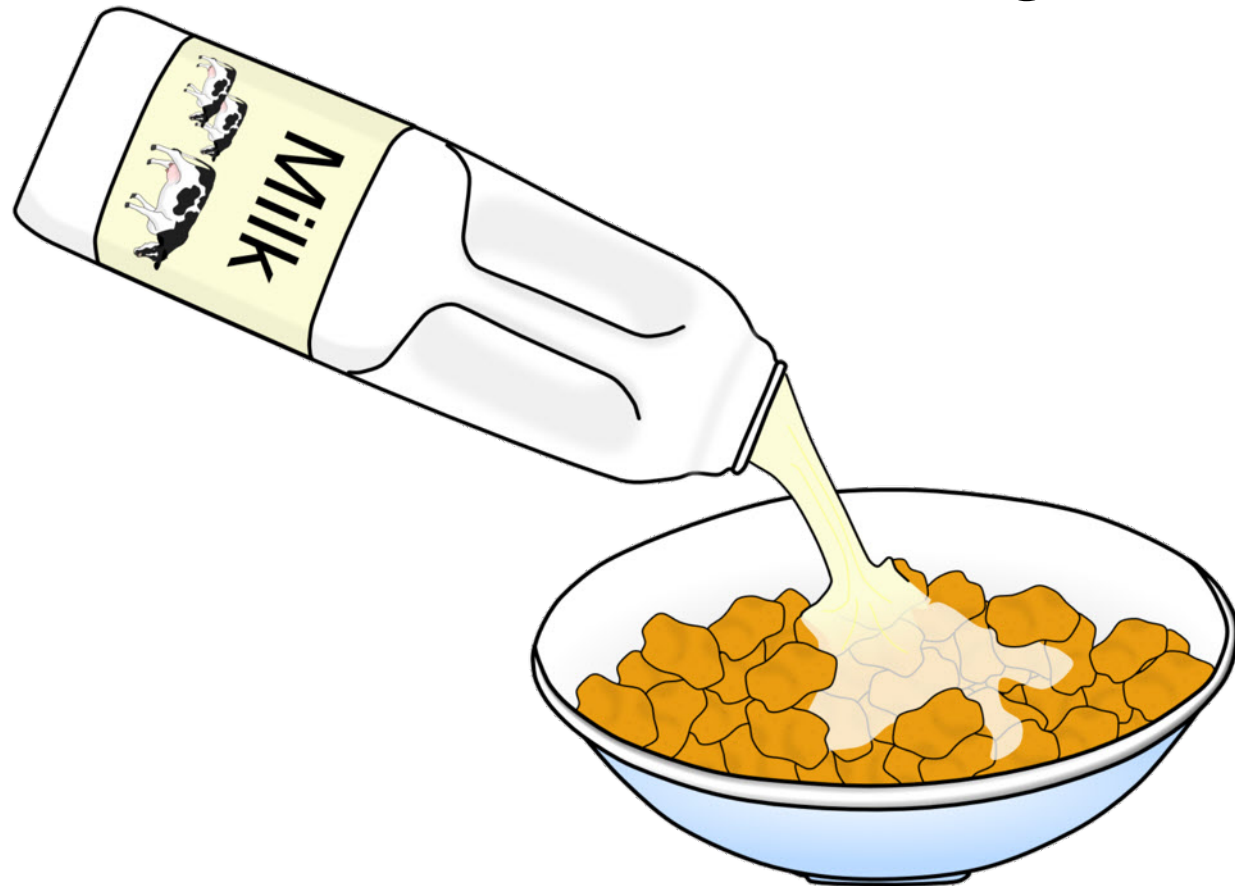

6

Where does milk come from?

Milk is put on the shelves
for us to buy.

Where does milk come from?

7

Finally we can enjoy the milk in tea, coffee and with our breakfast cereals!
