

# *How to Make a* **Sandcastle**

# You will need:

Some damp sand  
A small plastic bucket  
A small plastic spade

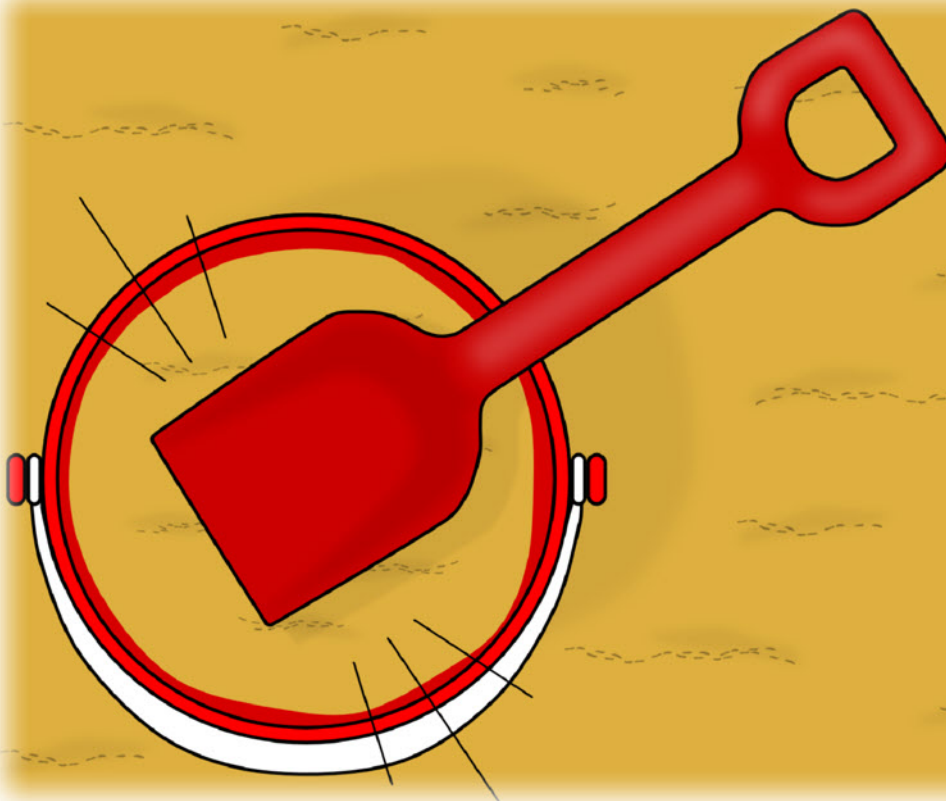

1

Fill your bucket to the top with moist sand.

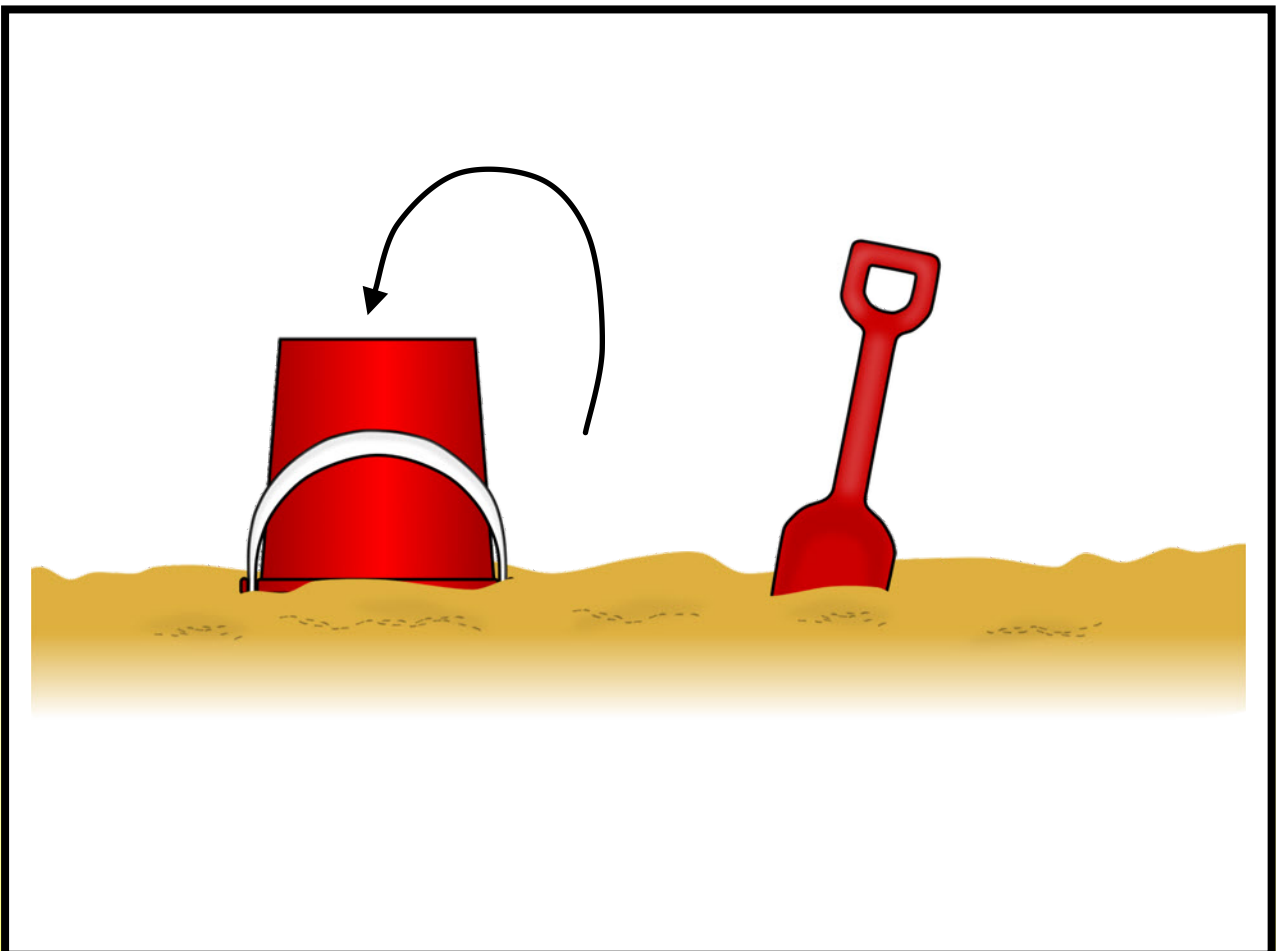

2

Use the spade to pat the sand in the bucket and make sure it is tightly packed in.

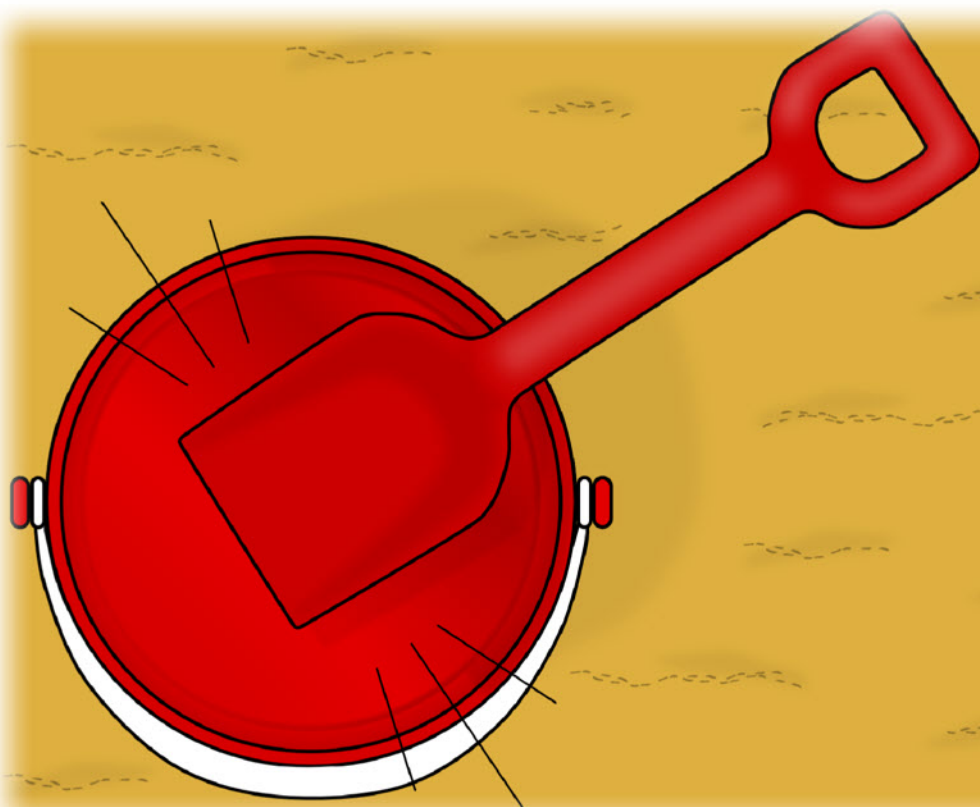

3

Pick up your bucket then turn it over and place it back on the ground in one quick movement.

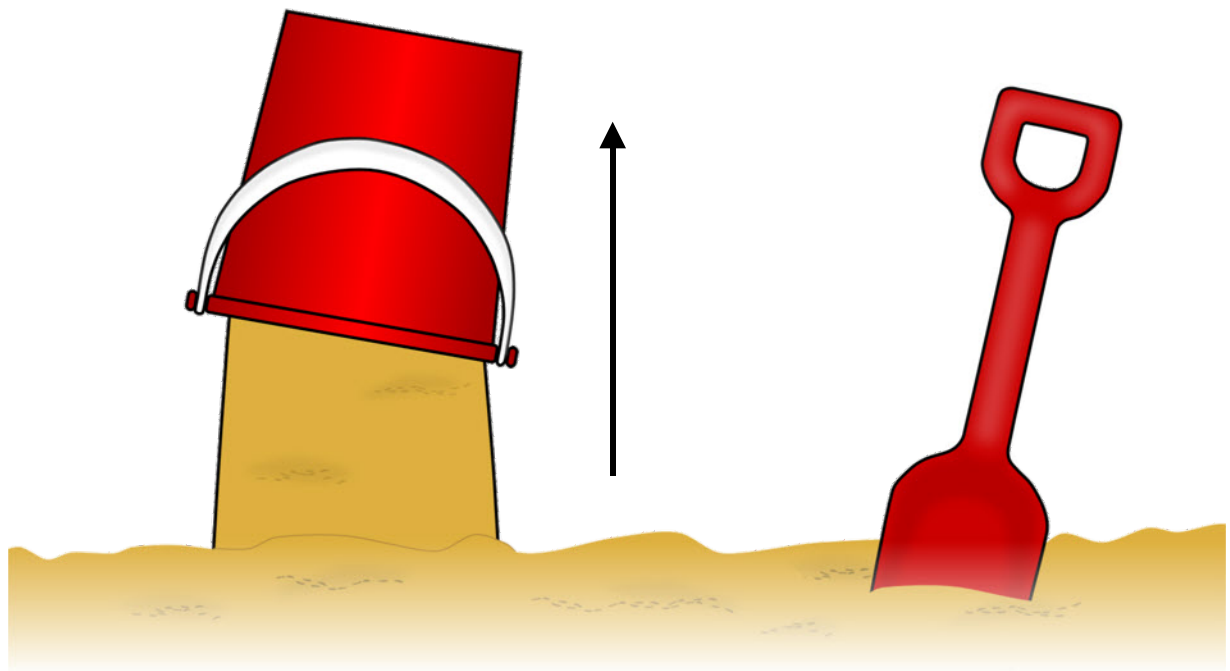

4

Tap the bucket with the spade a few times to loosen the sand inside.

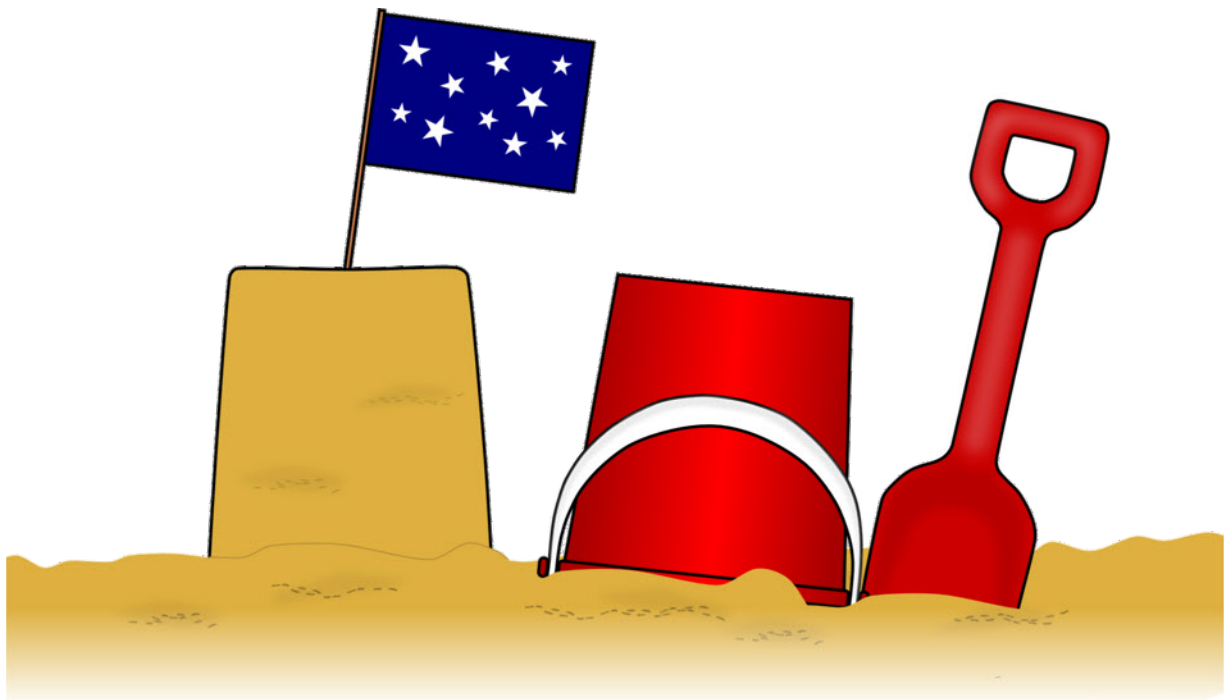

5

Carefully and slowly lift up the bucket to reveal your sandcastle.

**6** Decorate your castle with a flag or seashells.

# Challenge

Can you build a castle  
with lots of towers?
