Make your numbers with pebbles on the ground.

The illustration shows a vertical stack of five pebbles forming the number 1. From top to bottom, the pebbles are yellow, orange, grey, white, and black. Surrounding this stack are several other individual pebbles in various colors: a brown one at the top left, a grey one at the top right, an orange one on the left, a brown one at the bottom right, and a white one at the bottom center.

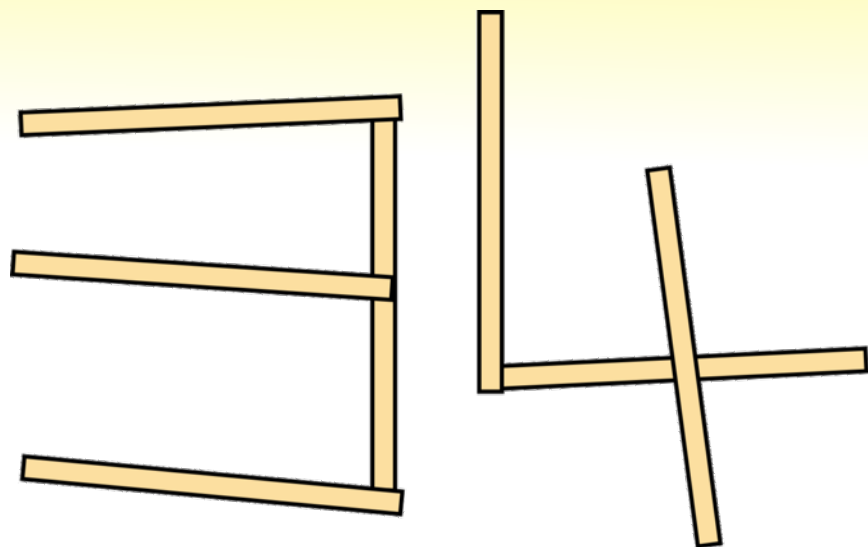

Make your numbers with bean bags.

The illustration shows a cluster of bean bags arranged to form the number 1. The bean bags are in various colors: blue, green, red, and yellow. They are stacked and overlapping to create the shape of the digit 1.
