Agrément Certificate
92/2805
Product Sheet 1

VULCATHENE DRAINAGE SYSTEMS

VULCATHENE MECHANICAL AND ENFUSION LABORATORY DRAINAGE SYSTEMS, PIPES, COUPLINGS AND FITTINGS

This Agrément Certificate Product Sheet⁽¹⁾ relates to Vulcathene Mechanical and Enfusion Laboratory Drainage Systems, Pipes, Couplings and Fittings, comprising chemical-resistant polypropylene suitable to convey the envisaged effluent including laboratory drainage systems.

(1) Hereinafter referred to as 'Certificate'.

CERTIFICATION INCLUDES:

- factors relating to compliance with Building Regulations where applicable
- factors relating to additional non-regulatory information where applicable
- independently verified technical specification
- assessment criteria and technical investigations
- design considerations
- installation guidance
- regular surveillance of production
- formal three-yearly review.

KEY FACTORS ASSESSED

Strength — the system components will resist the likely loadings in service and during installation (see section 6).

Performance of joints — joints between components will remain watertight under movement and temperature (see section 7).

Resistance to chemicals — the component material will be unaffected by those types and quantities of chemicals likely to be found in wastewater (see section 9).

Durability — the system components are durable (see section 13).

The BBA has awarded this Agrément Certificate to the company named above for the system described herein. This system has been assessed by the BBA as being fit for its intended use provided it is installed, used and maintained as set out in this Certificate.

On behalf of the British Board of Agrément
