

# Environmental Fact Sheet

**Brand name:** Monza Recycled

## Green label:

- Certified Carbon Neutral
- Optional Carbon Neutral
- Department of Climate Change National Carbon Offset Standard (NCOS) Logo
- Program for the Endorsement of Forest Certification (PEFC™)
- FSC® 100%
- FSC® Mix Sources
- FSC® Recycled
- Other:

FSC® Certified (licensed code FSC® C010628)

## Comments (if applicable):

### Environmental Management Systems (EMS)

- EMAS – Eco-Management & Audit Scheme
- IPPC – Integrated Pollution Prevention & Control
- ISO 14001
- Other:

### Fibre Source:

1% Virgin Wood Fibre  
% Recovered Fibre with %pre-consumer waste and 99% post-consumer waste  
% Other Fibre  
% Mill Broke

**Countries of origin (plus supplier if applicable):** Italy

**Pre-consumer sources:** Printing & converting trimmings and waste.

**Post-consumer sources:** Waste paper, newspaper, magazine and printing products, sorted and de-inked.

### Wood Source:

- FSC®
- FSC® Mix Sources
- Plantations
- Forest thinnings, waste wood from timber industry
- Other:

### Mill's Certified Virgin Fibre Source:

- FSC® Chain of Custody
- Programme for the Endorsement of Forest Certification (PEFC™)
- Canadian Standards Association (CSA)
- Sustainable Forestry Initiative (SFI)

Countries of origin (plus supplier if applicable): Belgium & USA

### Bleaching:

- ECF – Elemental Chlorine Free
- TCF – Totally Chlorine Free
- PCF – Process Chlorine Free

# Environmental Fact Sheet

## Water:

The mill operates within the Italian legislation, which is one of the most stringent in Europe. They have reduced water consumption by up to 40% over the past decade.

## Air:

The use of natural gas instead of fossil fuels helps minimise air emission levels, again operating within the Italian legislation.

## Energy:

The mill is 100% self-sufficient for its energy needs. They have an emissions management reduction plan in place with the aim to reduce actual carbon emissions.

## Solid waste land filled:

The mill controls waste in line with international regulations. They minimise landfill by recovering and recycling a large percentage of production by-products. The main type of recovery are furnaces that produce bricks from waste for environmental recovery and combustion. The resultant ashes produced are inert substances used in cement manufacturing.

## Using this product?

The icons below can be utilised on your next print job:

## Grammages available:

Gloss: 115, 130, 150, 170, 200, 250, 270, 300, 350, 400  
Satin: 100, 115, 130, 150, 170, 200, 250, 270, 300, 350, 400

## Tag lines:

### FSC® Printers

Monza Recycled is an FSC® Mix certified paper, which ensures that all pulp is derived from well-managed forests and controlled sources. It is elemental chlorine free and is manufactured by an ISO 14001 certified mill.

### Other Printers

Monza Recycled is made from elemental chlorine free pulp sourced from well-managed forests and controlled sources. An ISO 14001 certified mill manufactures it.

## Test and Trialling:

We always recommend that the sheet is test and trialled before commencing a print job. This is to determine that the sheet is suitable for the machine and the print job.
