

# Sponge.

## Visit Sponge at Learning Technologies.

04-05/05/22 | ExCel London | STAND G40

### How do we learn for a world being reimagined?

If we've learnt anything from the past couple of years, it is that humans have a remarkable resilience and ability to adapt. We're already saturated with the recent buzzword topics: 'The Great Resignation', 'The Reskilling Revolution', 'Hybrid Working', 'Dispersed Teams' – now it's time to meet their implications head-on.

With these huge cultural shifts happening, **how can L&D position themselves as strategic leaders**, (instead of internal order-takers) guiding their organisations through this change and embracing the opportunities that emerge as a result?

### Join us at Learning Technologies and explore our:

#### Exhibition Seminars:

#### **My Year With A Neuroscientist: Scientific Insights Applied to Workplace Learning**

Kate Pasterfield – Sponge co-founder.

#### **How to progress on the Data Maturity Scale: Building Actionable Insights with Travelodge**

Zach Romain – Head of Product Innovation at Sponge in partnership with Travelodge.

#### **The Humans Behind Your Data: A People-First Approach to Learning Analytics**

Liz Hardwell – Head of Learning Solutions at Sponge.

#### Conference Presentation:

#### **Digital Learning, Designed for Humanity**

Mark Story – Newcross Healthcare.

How 3D world simulations & 3D character-led stories have transformed Day 1 Compliance and onboarding.

#### Interactive exhibition stand:

- Can you move objects with your mind...?
- You've never seen a poll like this... grab a sweet treat and make your vote!
- Have a go on our demos: explore 3D worlds, business simulations, games, and game-changing data dashboards.

**We'd love to welcome you to the stand, why not plan ahead?**

**Book your meeting today!**
