14. Restore and recycling of old broken chairs / stools, College of Fine Arts and Design, 2017/2018.

15. Universal Design standards workshop, Tuesday 30 January 2018.

12. Project of recycling of junk tires to create outdoor sittings, College of Fine Arts and Design, 2017/2018.

13. Solar Decathlon Middle East in collaboration with Architecture Engineering, College of Fine Arts and Design, 2017/2018.

**Seminar Announcement!**  
*Bio-mediated & Bio-inspired Geotechnics*  
February 1<sup>st</sup>, 2018  
College of Engineering  
Building M9 Room 002 (Al Baytouni Hall)  
Organized by  
Department of Civil & Environmental Engineering, University of Sharjah  
jointly with  
Research Institute of Science & Engineering (RISE)

The Department of Civil & Environmental Engineering is pleased to announce a seminar that will be held February 1<sup>st</sup>, 2018 at the University of Sharjah with the collaboration with RISE. The seminar will focus on fundamental principles that underlie current and anticipated developments in bio-inspired geotechnics.

This seminar introduces participants to the principles of biological processes that act in the ground, including the action of bacteria. It will discuss ways to use naturally occurring bacteria to strengthen the soil, to mitigate against earthquake induced liquefaction and reinforce the soil. It will also explain methods inspired by biological processes to grout and enhance the soil properties with special emphasis on topics related to the Gulf region.

PROGRAM	
Registration & Lunch	1:00
Dr. Maher Othman, Opening Remarks	11:00 - 11:10
Prof. Nidal Hilal, Dean of College of Engineering, Welcoming Remarks	11:10 - 11:20
Prof. Abdallah Bharabeh, Director of Research Institute of Sciences and Engineering (RISE), Brief Overview	11:20 - 11:30
Prof. Edward Kavazanjian, Arizona State University, USA Topic: Bio-mediated & Bio-inspired Geotechnics	11:30 - 12:30
<b>Coffee Break 12:30 - 1:00</b>	
Prof. Edward Kavazanjian, Arizona State University, USA Topic: State of the Art and Practice in the Assessment of Earthquake Induced Soil Liquefaction and Its Consequences	1:00 - 1:45

**Prof. Edward Kavazanjian, Ph.D., P.E., D.Ord. NAE, Arizona State University, USA**

Prof. Kavazanjian is leading the effort in the US in the topic of bio-inspired techniques to solving geotechnical issues. He has been working on several research projects related to the use of bacterial activity and enzymes to enhance the mechanical properties of the soil.

Edward Kavazanjian, Jr. is a Regente Professor and the Ira A. Fulton Professor of Geotechnical Engineering at Arizona State University (ASU). He joined the faculty at ASU in August 2004 after 29 years as a practicing geotechnical engineer. Dr. Kavazanjian has Bachelor and Master of Science degrees from M.I.T. and a Ph.D. from the University of California at Berkeley. He is recognized for his work on the properties of municipal solid waste, the design and construction of waste containment systems, geotechnical earthquake engineering, and the emerging field of biogeotechnical engineering. He is recipient of the 2009 Ralph B. Peck, the 2010 Thomas A. Mullerbrooks, and the 2011 Karl Terzaghi awards from the American Society of Civil Engineers for his contributions to landfill engineering. In February 2013, he was elected to the National Academy of Engineering. In August 2013, he became Director of the Center for Bio-mediated and Bio-inspired Geotechnics, a National Science Foundation funded Research Center at ASU.

16. Bio-mediated & bio-inspired geo-technics, 1 February 2018.

College, Department of Environmental Health Sciences, 18 February 2018.

21. Celebration of “World Earth Day 2018” – Department of Environmental Health Sciences, 22 April 2018.

22. Workshop on fiber reinforced concrete (FRC): materials, applications and design aspects, 23 April 2018.

23. Participation in 12th Dubai International Food Safety Conference - Department of Environmental Health Sciences, Oct 2018.

24. Participation in UoS “Health, Community, and Environment Awareness Day” - Department of Environmental Health Sciences, 23 Oct 2018.

	
<p>25. Participation in the 18th Cycle of Intercollege Environmental Public Speaking Competition - Nov 2018.</p>	<p>26. Hosting at CHS “Sharjah Natural History and Botanical Museum” exhibition, Environment and Protected Areas Authority, 11-12 September 2018.</p>

	
<p>27. Participation in “Sustainable agriculture and climate change” by Ministry of Climate Change and Environment, 1 October 2018.</p>	<p>28. Seminar about sustainable buckling restrained braces: concept, applications, and seismic design aspects, Department of Civil and Environmental Engineering- 25 November 2018.</p>

29. Participation in the 19th **Inter-College Public Speech Competition, November 2018**

30. Energy Saving, Green Sustainability, 2018/2019.

31. Celebrating World Water Day and Earth Hour, 25 March 2019.

32. Participation in 4th Students' clubs and societies Exhibition – Health Science College, Environmental Health Sciences - February 2019

33. The Sustainable Garden circle a workshop, as shown in figure 35, for the 72 sustainable garden participants on cultivation practices to provide information for both experienced and beginner farmers that enrich and expand their skills and knowledge as well as answer their queries, 21 March 2019.

34. Clean Energy Initiative in cooperation with Sharjah Women’s Society & SEWA, 27t March 2019.

<p>35. Design and Implement Al- Multaqa Courtyard in CFAD, February 2019.</p>	<p>36. Food dining. 4<sup>th</sup> of November 2019.  <a href="https://www.instagram.com/p/B6pNGbRJsHU/?utm_source=ig_web_copy_link">https://www.instagram.com/p/B6pNGbRJsHU/?utm_source=ig_web_copy_link</a></p>
