RE: Greenhouse emissions offsetting (carbon offsets) – the University of Tasmania

Dear Carmen,

This letter confirms that CO2 Australia, acting on behalf of the University of Tasmania, has completed the surrender (extinguishment) of carbon offsets, as verified carbon credits, equivalent to a total greenhouse emissions offset of 35,668 tonnes of carbon dioxide equivalent (t CO₂e).

The surrendered carbon credits comprise a mix of 3,800 Australian Carbon Credit Units (ACCUs) generated under the Australian Emissions Reduction Fund (Carbon Farming Initiative) and 31,868 Verified Carbon Units (VCUs) generated under the Verified Carbon Standard. We understand that all of the credit types included are NCOS compliant.

As evidence of the offsetting action, please find included with this letter:

- ▶ Attachment 1: Summary of carbon credit details
- ▶ Attachment 2: Emails and screen-shots from the ANREU Registry (ACCUs) and APX VCS Registry confirming surrenders

Yours sincerely,

Mark Graeme,
Senior Manager – Carbon
