RE: Estrella Mountain Community College STARS® Report Submission

Estrella Mountain Community College strives to promote sustainability through environmental, economic, and social responsibility. By educating our students, faculty, staff and community we hope to create awareness that fosters environmental stewardship.

The completion of the STARS® report recognizes Estrella Mountain Community College's commitment toward becoming a more sustainable campus and will be used to guide future activities that improve the well-being of our community and the environment.

Estrella Mountain Community College obtained a bronze rating upon completion of the STARS® assessment. The following submission has been completed with accurate information and to the best of my knowledge.

Sincerely,

Dr. Ernie Lara
President
