Working together to save the planet! Sustainability in action!

Big congratulations and shout out to the UI team of **Juliette Churchill, Snezana Ulbrich, Nicole Marchhart** and **Victoria Bolton** for a sterling effort in saving approximately **25 tonnes** of discarded items from going into landfill following the Sydney College of the Arts move from Rozelle back to Camperdown. The items found new homes at the following places:

Men's Sheds - Large wood working machinery/equipment approx. 7 pieces - 3.5 tonnes

Divine Mercy – 1 truckload of stacking chairs some tables and mobile whiteboards – 1.5 tonnes

Lunatiques – 6 truckloads of solid timber tables, benches, cabinets, 3 large glass cabinets, retro items and miscellaneous items –

Healthy Sydney University 2

FASS Community 3

Metalshop – cleared out the SCA workshop and took 3 big metal benches, 4 large pieces of heavy metal machinery and equipment that required moving out with a forklift. 5 smaller pieces, all items will be reused in a metal and woodworking workshop. Approx. 7 tonnes

E-waste – computers, laptops, other equipment – approximately 1.5 tonnes

Re-use kiosk – 5 truckloads of furniture into Re-use – 5 tonnes

In addition there were 7 large loads of scrap metal that was collected for free.

The team went above and beyond working weekends and reaching out to organisations to ensure that the equipment could be re-used.

A truly fabulous effort. Thank you!
