This sustainability Literacy&Culture assessment is launched by the Sustainable Development Department in order to conduct a longitudinal study for the measurable change of Sustainability Literacy&Culture at the campus.

This survey is voluntary. There are no good and bad answers. We are interested in having an overview of your knowledge of basic information and particularly your interest, thoughts and opinions.

- 1st part: The knowledge about basics
- 2nd part: The values, behaviors, and beliefs.

We hope you will give all the questions your full consideration. Your intake is essential to assess effectively the advancement of Sustainability on campus. Your participation in this survey is highly encouraged.

Time: 5 min
