Re: Third-party verification of UM6P's GHG inventory

To AASHE's STARS review team:

I am a Carbon footprint expert trained and certified by Ademe, the French Ecological Transition Agency, the only organization authorized to certify independent consultants in France. Therefore, I am qualified to carry out carbon footprint calculation and verification for companies worldwide.

On a daily basis, I help companies and organizations tracking and managing their greenhouse gas emissions, and implementing net-zero strategies.

I have worked with Trusted Energy's team on the GHG annual emissions inventories of Mohammed VI Polytechnic University, Morocco.

I can affirm that I have thoroughly reviewed the UM6P's GHG annual emissions inventories and verified datas for the fiscal year 2021.

Please reach out with any questions.

Sincerely,

Geraldine Fournier
Independent Climate Consultant
