BUREAU DU PRÉSIDENT / SOLE / REGISTRARIAT

Dear students,

In an effort to create a safe environment for its community, UM6P is launching SpeakUp, a UM6P initiative to raise awareness and give students a free and transparent voice on sensitive issues facing young people today.

The SpeakUp initiative will allow you to express yourself confidentially and ask for help within the university, without the risk of judgement and without taboos, on issues that you encounter, such as bullying, sexual harassment and all other kinds of harassment in real or virtual settings.

SpeakUp emphasizes that whatever the problem is, the solution always starts with the awareness that you are not alone along with the courage to speak up and ask for help.

We are here to help you move safely through your university career. Expressing your concerns and realizing that your questions are shared by others can provide reassurance and enable you to move forward.

SpeakUp's ambition is to provide a participatory and confidential tool that will allow students to share their concerns, to act accordingly and to come up with answers and solutions.

SPEAK UP UM6P Letter Boxes

MOHAMMED VI
POLYTECHNIC
UNIVERSITY

Dear UM6P community members,

Aligning with the vision to create a « Safe Space » for its community, UM6P launched the "Speak Up" initiative few months ago.

Speak Up aims to raise awareness and give a free, transparent and anonymous voice to the community members on any sensitive issues they may face within their life at the university.

Today, the Speak Up team is strengthening its engaging process with the implementation of several Letter Boxes at UM6P campus in Benguerir.

Whether you decide to contact us by email on speakup@um6p.ma or by dropping your message in the letter box, we will be there for you.

Best regards,

Scholarships

A scholarship scheme allows (mainly via the OCP Foundation) to support academically outstanding students who do not have the necessary personal resources by partially or totally covering living expenses (accommodation / meals) and by the partial or total exemption tuition fees.

As such, students in fulltime programs can benefit from a dual system of scholarships:

Academic scholarships, based on academic excellence and awarded in relation to entrance examinations results, and intended to cover all or part of the tuition fees over the duration of the studies.

Financial Aid Grants, awarded annually by the Scholarships Committee based on social criteria, according to family income and expenses, and intended to cover all or part of the costs of housing and meals, and tuition fees not covered by an excellence-based scholarship. Social grants are awarded following the formulation of an application and the submission of supporting documents.

Academic scholarships and financial aid grants can be combined.

It is to be noted that the payment of the grants implies the attendance of the courses and a behavior in line with the values of the UM6P. Except in special cases, scholarships are suspended in case a year repeat.

Appendice - Supporting documents to be provided as part of the application for a UM6P grant under Social Conditions (BUCS)
